The Planning Division of the Community Development Department has recently completed the 2014 Planning and Development Activities Report. Each section of the report begins with summary information of each dimension tracked then provides detailed information by locations as used to tally totals in the summary tables in charts. Because of the length and detail of the report we have made it available online for ease of use and for the public. Mr. Patrick House of the department was responsible for the development and assembly of the report.
