**Questions & Answers:**

1. In the Scope of Work on Page 3, Section 1.1, A; we are replacing existing equipment, why are engineered drawings needed?

*Answer: Engineered drawings are required due to the complexity of the work. They are required to be kept on file due to the possibility of any additional work or for any trouble shooting that may have to be done in the future.*

2. In the Scope of Work on Page 3, Section 1.3, A & B; is all new wiring to be installed in existing conduit?

*Answer: The existing conduit can be used.*

3. In EXHIBIT B on Page 10, number 15; is the City to provide new Asset Work terminal?

*Answer: The City is not going to supply the Asset Work Terminal. The contractor is to work with Asset Works and provide equipment needed for the pumps. The new terminal can be housed in the existing cabinet and pedestal.*

4. In EXHIBIT B on Page 10, number 19; can you specify requested signs?

*Answer: Per the Fleet Superintendent; required signage is already in place. Delete number 19 under the Scope of Work on Page 10 of EXHIBIT B.*

5. In Addendum #1, Page 1, number 6; what is the horsepower of the existing submerged pumps?

*Answer: Per the Fleet Superintendent; the information on the horsepower of the existing submerged pumps cannot be found.*

6. In Addendum #1, Page 1, number 7; are all manhole and fuel tank covers to be replaced?

*Answer: No manhole or tank covers will be replaced. The existing will be repaired and painted.*

**Bids are due Thursday, January 21, 2016 at the Public Works Administration Building, 1500 Beatty Street, Greenville, NC. Bids will be accepted up to 2:00 P.M. Bids will be opened and evaluated by staff and a bid tabulation will be available upon request once the contract is awarded to the successful bidder. *Note: Mailed proposals will be accepted up to the 2:00 P.M. deadline. All proposals received in the mail will be stamped with the date and time or receipt.***

*End of Addenda #2*
