Proper notification of the Alarm Administrator shall stay the imposition of a penalty, suspension or revocation until adjudication. The Alarm Administrator shall conduct an informal hearing and consider evidence presented by the alarm user. Faulty or overly sensitive equipment, user error or failure to renew the alarm permit shall not be sufficient basis to grant an appeal.

(2) If the alarm user is not satisfied with the ruling of the Alarm Administrator, then the alarm user may appeal to the Alarm Appeal Board as constituted in accordance with the provisions of subsection (I)(4) below. The request for an appeal to the Alarm Appeal Board must be provided to the Alarm Administrator, on a form provided by the city, within 20 days from the date of the Alarm Administrator's ruling. Proper notification shall stay the imposition of a penalty, suspension or revocation until adjudication. The Alarm Appeal Board shall conduct a hearing and consider evidence presented by the alarm user and by other interested persons. Faulty or overly sensitive equipment, user error or failure to renew the alarm permit shall not be sufficient basis to grant an appeal. The Alarm Appeal Board shall make a decision based on the preponderance of the evidence standard and provide a decision within 30 days. The decision of the Alarm Appeal Board is the final administrative remedy as to the city.

(3) The Alarm Appeal Board shall review an appeal from the assessment of civil penalties or other enforcement decisions using a preponderance of the evidence standard. Notwithstanding a determination that the preponderance of the evidence supports the assessment of civil penalties or other enforcement decision, the Alarm Appeal Board shall have the discretion to dismiss or reduce civil penalties or reverse any other enforcement decision where warranted.

(4) The Alarm Appeal Board shall be constituted of the following three members: a member of the Police Department designated by the Chief of Police, a person associated with an alarm system business designated by the City Manager from nominations received from alarm system businesses, and a person designated by the City Manager from nominations received by the Neighborhood Advisory Council. In the event nominations are not received from the alarm system businesses or the Neighborhood Advisory Council or the City Manager determines to not designate a member from the nominations received, the City Manager shall designate a person to serve on the Alarm Appeal Board until a nomination is received by the City Manager and the person is designated by the City Manager as a member of the Alarm Appeal Board. Members of the Alarm Appeal Board will be designated for a term consisting of one calendar year from January to December, members may serve unlimited consecutive terms, and a vacancy shall be filled for the unexpired term. (Ord. No. 08-110, § 2, passed 10-9-2008)

(J) No public duty. The permitting of an alarm system is not intended to nor will it create a contract, duty or obligation, either expressed or implied, of response. Any and all liability and consequential damage resulting from the failure to respond to a notification is hereby disclaimed and governmental immunity as provided by law is retained. By registering the alarm system, the alarm user acknowledges that law enforcement response may be based on factors such as availability of law enforcement units, priority of calls, weather conditions, traffic conditions, emergency conditions and staffing levels.
