Memorandum

To: Ann E. Wall, City Manager
From: Kevin Mulligan, PE, Director of Public Works 
Date: 11/13/19
Subject: Litter camera implementation

The City is increasing its efforts to reduce litter and illegal dumping by beginning to implement mobile cameras to identify offenders. These cameras will be placed in multiple locations and will be used to track those who are illegally dumping.

This is a joint effort between multiple City departments to concentrate efforts on locations in the city where illegal dumping commonly occurs.

Information about this campaign has been distributed by way of press release and interviews with local news outlets. Residents have been encouraged to call the Greenville Police Department's non-emergency line (329-4315) to report a site that is being used for illegal dumping.

Memorandum

To: Ann E. Wall, City Manager
From: Kevin Mulligan, PE, Director of Public Works *KM*
Date: 11/13/19
Subject: Vehicle event at South Greenville Elementary

As part of an educational event, the City has arranged to take four vehicles to South Greenville Elementary School on the morning of Friday, November 22.

As part of South Greenville Elementary celebration of community service workers, City staff will explain and demonstrate the use of each vehicle to the school's kindergarten and first grade students. The Public Information Office has coordinated with Fire/Rescue, Police, and Public Works to have these vehicles in place from 8:30 – 11:45 a.m. in front of the school.

The plan is to have one Fire/Rescue vehicle and one police vehicle in attendance, as well as a City bus and a fourth vehicle from Public Works. We are proud to join the school in this event.

Subject: Pay for Parking by Mobile Phone

Starting the week of November 19, 2019, City of Greenville will roll out a mobile payment app, Passport Parking, which can be used for DAILY Fee parking payments. This will be an additional method to pay for parking.

Patrons parking in daily fees spaces in the garage or surface lots that features the "Passport Parking" signs, or decals placed on the payment kiosks, can began paying parking fees via an app or by calling via cell phone. Paying by coins and credit cards at the pay kiosk will remain an option as well.

Using the Passport Parking app provides a great convenience for residents, commuters and visitors who use the current daily fee parking spaces in the uptown area.

The app is simple to use: Download the app. Create an account, choose the parking zone you are located in (denoted on the Passport Parking signage) and enter your vehicle license plate to start your session.

The app is only to be used at daily fee parking spaces. Users can also manage their parking online through the Passport Parking Website.
