

GREENVILLE URBAN AREA METROPOLITAN PLANNING ORGANIZATION
JOINT GOVERNING MEETING

Wednesday, September 13, 2023 at 1:30 p.m. - Hybrid
Main Conference Room, Public Works Department
1500 Beatty Street Greenville, NC 27834.

Actions to be taken in bold italics

1) TCC Roll Call

2) TCC Approval of Agenda; approve

3) TCC Approval of June 28th, 2023 Minutes; approve (pg. 3-7)

4) TAC Roll Call

5) TAC Approval of Agenda; approve

6) Ethics Awareness & Conflict of Interest Reminder

Chair to read aloud Ethics Awareness and Conflict of Interest reminder

ETHICS AWARENESS & CONFLICT OF INTEREST REMINDER--Does any Board member have any known conflict of interest with respect to any matters coming before the Board today? If so, please identify the conflict and refrain from any participation in the particular matter involved.

7) TAC Approval of July 12th, 2023 Minutes; approve (pg. 8-13)

8) Public Comment Period

9) Regular Agenda

- a) 2020-2029 Transportation Improvement Program (MTIP) Amendment - *approve*** (pg. 14-16)
- b) 2024-2033 Transportation Improvement Program (MTIP) Adoption– *approve*** (pg. 17-82)
- c) 2024-2033 Transportation Improvement Program (MTIP) Amendment - *approve*** (pg. 83-86)
- d) Prioritization 7.0 Project/Corridor List and Schedule – *approve*** (pg. 87-97)
- e) 5310 Operating Grant Letter of Support– *approve*** (pg. 98-99)
- f) Reconnecting Communities & Neighborhoods Grant Letter of Support– *approve*** (pg. 100-101)

10) Other Discussion Items

- a) Updates/Announcements (pg. 102-107)**
 - i. Division 2 - Len White
 - ii. Integrated Mobility Division – Nick Morrison
 - iii. MPO Staff Updates

11) Upcoming MPO 2023 Meeting Schedule (Hybrid at 1:30pm)*

- Technical Coordinating Committee (TCC) – November 29
- Transportation Advisory Committee (TAC) – November 29

12) Adjourn Meeting –

GREENVILLE URBAN AREA MPO'S TITLE VI NOTICE TO PUBLIC

U.S. Department of Justice regulations, 28 Code of Federal Regulations, Section 42.405, Public Dissemination of Title VI Information, require recipients of Federal financial assistance to publish or broadcast program information in the news media. Advertisements must state that the program is an equal opportunity program and/or indicate that Federal law prohibits discrimination. Additionally, reasonable steps shall be taken to publish information in languages understood by the population eligible to be served or likely to be directly affected by transportation projects.

The Greenville Urban Area MPO hereby gives public notice that it's the policy of the MPO to assure full compliance with Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, Executive Order 12898 *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations*, Executive Order 13166 *Improving Access to Services for Persons with Limited English Proficiency*, and related nondiscrimination statutes and regulations in all programs and services. It is the MPO's policy that no person in the United States shall, on the grounds of race, color, sex, age, income status, national origin, or disabilities be excluded from the participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program, activities, or services for which the MPO receives Federal financial assistance.

Any person who believes they have been mistreated by an unlawful discriminatory practice under Title VI has a right to file a formal complaint with the Greenville Urban Area MPO. Any such complaint must be in writing or in person to the City of Greenville, Public Works-- Engineering, MPO Title VI Coordinator, 1500 Beatty St, Greenville, NC 27834, within one hundred eighty (180) days following the date of the alleged discrimination occurrence. Title VI Discrimination Complaint forms may be obtained from the above address at no cost, or via internet at www.greenvillenc.gov.

GREENVILLE URBAN AREA MPO'S TÍTULO VI COMUNICACIÓN PÚBLICA

El Departamento de Justicia de regulaciones de EU, Código 28 de Regulaciones Federales, Sección 42.405, Difusión Pública del Título VI de la información, exigen que el beneficiario de la ayuda financiera del gobierno federal publique o difunda la información del programa a los medios de comunicación. Los anuncios deben indicar que el programa es un programa de igualdad de oportunidades y / o indicar que la ley federal prohíbe la discriminación. Además, deben tomarse pasos razonables para publicar la información en los idiomas de la población a la cual servirán, o que puedan ser directamente afectadas por los proyectos de transporte.

La Organización Metropolitana de Planificación de Greenville (Greenville Urban Area MPO) notifica públicamente que es política del MPO asegurar el pleno cumplimiento del Título VI del Acta de Derechos Civiles de 1964, la Ley de Restauración de Derechos Civiles de 1987, la Orden Ejecutiva 12898 Dirección Federal de Acciones para la Justicia Ambiental en Poblaciones minoritarias y poblaciones de bajos ingresos, la Orden Ejecutiva 13166 Mejorar el acceso a los Servicios para Personas con Inglés Limitado, y de los estatutos y reglamentos relacionados con la no discriminación en todos los programas y servicios. El MPO está comprometido a ofrecer oportunidades de participación significativa en sus programas, servicios y actividades a las minorías, poblaciones de bajos recursos y personas que no dominan bien el idioma Inglés. Además, reconocemos la necesidad de evaluar el potencial de impactos a estos grupos a través del proceso de toma de decisiones, así como la obligación de evitar, minimizar y mitigar impactos adversos en los que son desproporcionadamente altos. Es política del MPO que ninguna persona en los Estados Unidos, por motivos de raza, color, sexo, edad, nivel de ingresos, origen nacional o discapacidad sea excluido de la participación en, sea negado los beneficios de, o sea de otra manera sujeto a discriminación bajo cualquier programa, actividades o servicios para los que el MPO recibe asistencia financiera federal.

Cualquier persona que crea haber sido maltratada por una práctica discriminatoria ilegal en virtud del Título VI tiene derecho a presentar una queja formal con NCDOT. Cualquier queja debe ser por escrito o en persona con el Ciudad de Greenville, Public Works--Engineering, MPO Title VI Coordinator, 1500 Beatty St, Greenville, NC 27834, dentro de los ciento ochenta (180) días siguientes a la fecha en que ocurrió la supuesta discriminación. Los formatos de quejas por discriminación del Título VI pueden obtenerse en la Oficina de Public Works sin costo alguno o, o a través de Internet en www.greenvillenc.gov.

Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Minutes from the June 28th, 2023 TCC Meeting

Purpose: To review and approve the minutes of the June 28th TCC meeting.

Discussion: The draft minutes from the June 28th TCC meeting are attached for review and approval.

Action Needed: Approve the June 28th, 2023 TCC meeting minutes.

Attachments: *Draft June 28th TCC meeting minutes*

**GREENVILLE URBAN AREA METROPOLITAN PLANNING ORGANIZATION
TECHNICAL COORDINATING COMMITTEE MINUTES
JUNE 28, 2023**

Members of the Technical Coordinating Committee of the Greenville Urban Area Metropolitan Planning Organization met on the above date at 1:30 p.m. via Hybrid. Lisa Kirby, TCC Chairperson, called the meeting to order. The following attended the meeting:

Lisa Kirby, City of Greenville
Ken Graves, City of Greenville
Chante Gooby, City of Greenville
Rik DiCesare, City of Greenville
Elizabeth Stalls, Greenville Area Transit
Bryan Jones, Town of Winterville
Jonas Hill, Pitt County
James Rhodes, Pitt County

Michael Taylor, Pitt County
Anthony Bowers, Town of Winterville
Stephen Penn, Town of Winterville
Jeff Cabaniss, NCDOT
Steve Hamilton, NCDOT
Liam Hogan-Rivera, NCDOT
Len White, NCDOT
Bailey Harden, NCDOT
William Bagnell, ECU
Sam Singleton, Mid-East Commission

OTHERS PRESENT:

Eliud De Jesus, Greenville Urban Area MPO
Jeffery Rashko, Greenville Urban Area MPO
Jordan Kearney, Greenville Urban Area MPO
Steve Tripp, Mayor of Ayden
City of Greenville Interns
Nick Morrison, Integrated Mobility Division

I. APPROVAL OF AGENDA

A motion was made by Steve Hamilton to approve the agenda for the TCC as presented. A second was made by Anthony Bower and the motion passed unanimously.

II. PUBLIC COMMENT PERIOD

There were no public comments.

III. MPO101 PRESENTATION

Eliud De Jesus presented the MPO101 Presentation. In this presentation, Eliud describes purpose of the MPO, how the TCC and TAC function in terms of structure and voting, and some of the priorities involving the Urbanized Area as a whole.

IV. REGULAR AGENDA

A. Approval of the TCC meeting minutes

A motion was made by William Bagnell to approve the minutes of the February 15th, 2023 TCC meeting. After discussion about comments made by James Rhodes, the motion was seconded by Rik DiCesare to approve the minutes under the provision to make modifications to fix minor typos within the minutes. The motion passed unanimously.

B. FY 2020-2029 Transportation Improvement Program (TIP) Amendment

Eliud De Jesus brought before the committee the amendment to the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program, as well as the addition of new projects and the removal of existing projects. A motion was made by James Rhodes to approve

the amendment as presented. The motion was seconded by Steve Hamilton and passed unanimously.

C. Supporting NCDOT Targets for Performance Measures Associated with Pavement and Bridge, and Reliability and Freight

Eliud De Jesus presented the criteria for the Performance Measure Associated with Pavement and Bridge, and Reliability and Freight. These performance measures are set by the state and contain measure goals for every 2 and 4 years. With these performance measure categories, MPO's have the option to create their own, or adopt the state standards. Eliud stated that GUAMPO has adopted these state measures in the past and recommends that the TCC propose these targets for TAC adoption, as creating the MPO's own performances measure would make the MPO responsible for providing all data required to demonstrate the meeting of the performance measure goals. A motion was made by Mike Taylor for proposal to TAC. A second was made by Rik DeCesare and the motion passed unanimously.

D. Safe Streets for All Grant Application Letter of Support

Eliud De Jesus presented a draft of a letter of support for the Greenville Urban Area Metropolitan Planning Organization's (GUAMPO) application for the USDOT Safe Streets for All Planning and Demonstration Grant. The Safe Streets for All (SS4A) Grant was established as part of the Bipartisan Infrastructure Law to aid in the establishment of new safe street systems. GUAMPO is applying for the grant with the intention of using the grant award to develop a Comprehensive Vision Zero Safety Action Plan. A motion was made by Anthony Bowers to approve the letter of support. A second was made by Steve Hamilton and the motion passed unanimously.

E. Approval of the Greenville Urban Area MPO's Fiscal Year 2024 Unified Planning Work Program (UPWP) Amendment #1

Eliud De Jesus presented a draft for Amendment #1 to the FY2024 Unified Planning Work Program (UPWP). The Amendment reallocates funding from other tasks into task II-B-2, and adds verbiage to the UPWP which designates that GUAMPO to begin working on the Metropolitan Transportation Plan (MTP) Update to develop the 2050 Metropolitan Transportation Plan. The Amendment adds onto the UPWP which was adopted on March 8th, 2023. The motion was made by Rik DeCesare to approve the amendment. A second was made by Steve Hamilton and the motion passed unanimously.

F. Carbon Reduction Program Selection Criteria

Eliud De Jesus submitted a list of criteria for the Carbon Reduction Program (CRP). President Biden signed the Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58, also known as the "Bipartisan Infrastructure Law") (BIL) into law. The BIL authorizes a new Carbon Reduction Program (CRP) codified at 23 United States Code (U.S.C.) 175 to reduce transportation emissions. The program requires the MPO to adopt a criteria to score local projects. The projects are then submitted to NCDOT to confirm eligibility before funds are awarded to the highest scoring projects. A motion was made by Steve Hamilton to accept the list of criteria. A second was made by Anthony Bowers and the motion passed unanimously.

G. P6.0 Projects and Prioritization Process update

Eliud De Jesus gave an update on P6.0 projects and Prioritization Process. He explained the MPO will review the list of projects as potential candidates for the next

Prioritization Cycle, which opens this summer. The scoring criteria is integral to the analysis procedure when creating the list. He expects to request TCC approval of the P7 projects in the September meeting.

V. OTHER DISCUSSION ITEMS

A. Greater Rocky Mount, Greenville & Wilson Area Transit Plan by Ines Nizeye and Laura Everitt, Benesch

B. Final STIP 2024-2033 Project List Update

Eliud presented the final changes made before the 2024-2033 STIP was adopted. James Rhodes asked for clarification as to why project R-2250 (Greenville Southwest Bypass) was still in the STIP. Len White explained that the project will stay in the STIP until the bond is paid off.

C. Prioritization 7.0 Schedule and Project List Update

Eliud presented the projects that are currently up for entry into the Prioritization 7 cycle. Eliud mentioned that there are three available slots that are currently unused for highway projects. Eliud also mentioned that all the slots for BikePed are currently filled, and that project swaps will need to occur.

D. Updates/Announcements

1. Division 2 – Len White

Len White described the different project updates happening for the Greenville Urban Area MPO. The contractor for the Dickinson Improvements project has been unresponsive; Division 2 NCDOT is still trying to reach out to them. Memorial Northbound Bridge is reporting to start on July 10, and the inside lanes on both bridges are to be shut down for maintenance. Oxford Road Bridge Replacement is to be let on September of 2024. Regarding the Evans and Howell crosswalk replacement, the 35 MPH zone has been moved more south, and the flashing beacons are going to be installed soon.

2. Transportation Planning Division – Liam Hogan-Rivera

3. Integrated Mobility Division – Nick Morrison

4. MPO Staff Updates

Within this section, it is to be noted that the TCC publicly commended Eliud De Jesus and Jordan Kearney for successfully hosting the NCAMPO conference. The TCC recognized the hard work and dedication that went into going above the line of duty to run such a large event.

VI. UPCOMING MPO MEETING SCHEDULE

- Technical Coordinating Committee (TCC) – September 13; November 29 (tentative)

VII. ADJOURN MEETING

With no further items to discuss, the meeting was adjourned.

Respectfully submitted,

Rachel Manning, Secretary

Technical Coordinating Committee

Attachment 7

Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Minutes from the July 12th, 2023 TAC Meeting

Purpose: To review and approve the minutes of the July 12th Meeting.

Discussion: The draft minutes from the July 12th, 2023 TAC Meeting are attached for review and approval.

Action Needed: Approve the July 12th, 2023 TAC meeting minutes.

Attachments: *Draft July 12th TAC meeting minutes*

**GREENVILLE URBAN AREA METROPOLITAN PLANNING ORGANIZATION
TRANSPORTATION ADVISORY COMMITTEE MINUTES
JULY 12, 2023**

Members of the Technical Advisory Committee of the Greenville Urban Area Metropolitan Planning Organization met on the above date at 1:30 p.m. via Hybrid. Mayor P.J. Connelly, TAC Chairperson, called the meeting to order. The following attended the meeting:

Mayor P.J. Connelly, City of Greenville
Mayor Richard Zeck, Town of Simpson
Commissioner Melvin McLawhorn, Pitt Co.
Mayor Ricky Hines, Town of Winterville
Merrie Jo Alcocke, NCBOT

OTHERS PRESENT:

Eliud De Jesus, Greenville MPO	Bailey Harden, NCDOT
Rachel Manning, City of Greenville	Bill Marley, FHWA
Jordan Kearney, Greenville MPO	Liam Hogan-Rivera
Ken Graves, City of Greenville	Nick Morrison, FHWA
Anthony Bowers, Town of Winterville	Laura Everitt, NCDOT
James Rhodes, Pitt County	Mehak Rathore
Len White, NCDOT	

I. APPROVAL OF AGENDA

A motion was made by Mayor Zeck to approve the agenda as presented. The motion was seconded by Commissioner McLawhorn and passed unanimously.

II. PUBLIC COMMENT PERIOD

There were no public comments.

III. MPO101 PRESENTATION

Eliud De Jesus gave a presentation about the purpose of the Metropolitan Planning Organization (MPO). He explained that the MPO provides members of the Transportation Advisory Committee (TAC) with presentation materials on the responsibility, role, and processes of the Greenville MPO.

IV. REGULAR AGENDA

A. Approval of the March 8, 2023 TAC Committee Meeting Minutes

A motion was made Mayor Hines to approve the minutes of the March 8, 2023 TAC meeting as presented. The motion was seconded by Commissioner McLawhorn and passed unanimously.

B. FY 2020-2029 Transportation Improvement Program (TIP) Amendment

Mr. De Jesus brought before the committee the amendment to the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program, as well as the addition of new projects and the removal of existing projects. A motion was made by Mayor Zeck to approve the amendment as presented. The motion was seconded by Mayor McLawhorn and passed unanimously.

C. Supporting NCDOT targets for performance measures associated with Pavement and Bridge, and Reliability and Freight

Eliud De Jesus presented NCDOT targets for performance measures associated with Pavement and Bridge, and Reliability and Freight. He requested that the TAC support the State performance targets, created in coordination with various MPOs, for Performance Measures category 2 (pavement & bridge) and category 3 (reliability and freight) for compliance and inclusion in the MPO's long range planning efforts. A motion was made by Commissioner McLawhorn to approve the requested support. A second was made by Mayor Hines and passed unanimously.

D. Approval of the Greenville Urban Area MPO's Fiscal Year 2024 Unified Planning Work Program (UPWP)

Eliud De Jesus presented a draft of the Greenville Urban Area Metropolitan Planning Organization's (GUAMPO) Fiscal Year 2023 (2023-2024) Unified Planning Work Program and requested the TCC to recommend adoption by the committee. The Unified Planning Work Program (UPWP) is a federally mandated document that must be prepared yearly. The purpose of the UPWP is to illustrate the activities and expenditures anticipated by the MPO for the coming fiscal year. Upon presentation and discussion, a motion was made by Mayor Zeck to adopt. The motion was seconded by Commissioner McLawhorn and passed unanimously.

VI. OTHER DISCUSSION ITEMS

A. Safe streets for all grant application letter of support

The Bipartisan Infrastructure Law (BIL) established the new Safe Streets for All (SS4A) discretionary program with \$5 billion in appropriated funds over 5 years. The SS4A program funds regional, local, and tribal initiatives through grants to prevent roadway deaths and serious injuries. The SS4A program supports the U.S. Department of Transportation's National Roadway Safety Strategy and our goal of zero roadway deaths.

The deadline to submit grant materials was July 10, 2023. Due to time constraints for submitting grant application materials, the MPO staff requested that a letter of support be signed by the TCC to accompany the application materials. The Greenville MPO SS4A application was officially submitted on July 7th. The announcement of the grant awardees is anticipated to take place in October. This item is to inform the TAC of recent events.

B. Greater Rocky Mount, Greenville & Wilson Area Transit Plan by Ines Nizeye and Laura Everitt, Benesch

Laura Everitt presented the Greater Rocky Mounty, Greenville & Wilson Area Transit Plan, which is part of the North Carolina Department of Transportation's (NCDOT) Coordinated Regional Transit Plan. North Carolina has experienced significant population growth in the last decade and, according to the 2020 Census, is the ninth most populous state in the US. To support and guide local agencies with this effort, the NCDOT Integrated Mobility Division (IMD) has developed a statewide approach to coordinated regional public transportation planning. This Regional Transit Plan will engage this process for the Greater Rocky Mount, Greenville, and Wilson study area.

The presentation provided an introduction to the project, an overview of current operating conditions, a recap of themes from stakeholder interviews, an introduction to our project's virtual room, and the project's next steps. The Benesch team is looking for input and feedback from meeting attendees concerning transit issues in the local community.

C. Final STIP 2024-2033 Project Changes

GUAMPO staff has reviewed the revised draft STIP and prepared a brief summary document (attached) noting the major differences between the 2020-29 STIP, the draft 2024-33 STIP, and the adopted 2024-33 STIP for the GUAMPO area. As a reminder, this adopted STIP has been developed solely by using existing committed projects from the current 2020-29 STIP document and does not include any new projects from Prioritization 6.0, which was halted in Summer 2021.

The MPO will review the list of projects as potential candidates for the next Prioritization Cycle, which opens this summer. The scoring criteria are integral to our analysis procedure when creating the list. We expect to request TCC approval of the P7 projects in our September meeting.

D. Prioritization 7.0 Schedule and Project List update

The MPO received sixteen (16) project submission slots in each mode of transportation (highway, bike & ped, rail, public transportation, aviation and ferry) for the P7.0, the current cycle. Project submission totals are determined by the population and number of lane miles in the MPO. Staff has added and made changes to the project list for review by the MPO's governing committees.

Staff requests that the TCC request the TAC approve the subsequent project list for submission in P7.0. Staff is also sharing the updated Prioritization 7.0 schedule. SPOT Online becomes active from July 10th to September 29th. The Period from October to March, NCDOT will review data and score projects. The resulting scores from Prioritization 7.0 will guide the development of the future draft 2023-2032 STIP which now has a planned release in May 2024. The date for the adoption of the final STIP will be in Fall 2024.

E. Carbon Reduction Program Selection Criteria

Greenville Urban Area MPO is a non-TMA area and must consult with NCDOT on which projects are selected to ensure eligibility. CRP funds can be used for a wide range of projects that reduce emissions. Eligible activities as identified in the statute include but aren't limited to: traffic management, truck stop electrification, public transportation, transportation alternatives. Other projects may be eligible with demonstration of emissions reductions. All projects selected must follow Title 23 requirements. For the Committee's convenience, MPO Staff has attached a copy of the Carbon Reduction Program presentation given by Nastasha Earle-Young from the Transportation Planning Division during our joint meeting on December 7, 2022.

The criteria is based upon a points system, with the projects with the highest points, while also following eligibility receiving funding. MPO staff propose the adoption of the following selection criteria to guide the evaluation and prioritization of projects eligible for CRP funding:

1. Innovation: Projects that demonstrate innovative approaches or technologies in reducing transportation emissions will be prioritized.
2. Mode Effectiveness: Projects promoting modes of transportation with proven METROPOLITAN PLANNING ORGANIZATION 79 of 109 effectiveness in emission reduction, such as public transportation or alternative transportation options, will receive preference.

3. Carbon Reduction: The extent to which projects contribute to substantial carbon emissions reduction will be a key consideration in project evaluation.
4. Equity and Disadvantaged Populations: Projects that address the transportation needs of disadvantaged populations or prioritize equity in transportation accessibility will receive additional consideration.
5. Crash History: Projects that aim to enhance safety and reduce the occurrence of traffic accidents will be given priority.
6. Alignment with Adopted Plans: Projects that align with existing transportation plans, policies, and initiatives will be rated higher.

Despite the Technical Coordinating Committee having voted to recommend these criteria to the TAC, the MPO Staff is tabling this item until we receive further guidance from the NCDOT.

F. Updates/Announcements

i. Division 2 - Len White (pg.99-105)

Len White presented updates from NCDOT about current and upcoming projects. Several roads are being milled and resurfaced. Other work includes widening, and shoulder reconstruction and other maintenance.

ii. Transportation Planning Division – Liam Hogan-Rivera (pg.106-109)

Liam Hogan-Rivera shared NCDOT news, as well as different initiatives happening across the state. One directly pertaining to Pitt County is the Pitt County Comprehensive Transportation Plan (CTP). The CTP is in the internal review stage where the draft content core is being reviewed by management. The comments will then be addressed and the draft plan will go to the steering committee for review at the tentative scheduled meeting on August 28th.

iii. Integrated Mobility Division – Nick Morrison

Nick Morrison shared FHWA news and encouraged everyone to take the community survey in regards to the Transportation Plan.

iv. MPO Staff Updates

Eliud De Jesus discussed MPO updates that will explore the planning and delivery of meeting packets, as well as the idea of more meetings throughout the year.

VII. UPCOMING MPO MEETING SCHEDULE

- Technical Coordinating Committee (TCC) – September 13; November 29
- Transportation Advisory Committee (TAC) – September 27; November 29

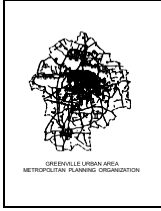

VIII. ADJOURN MEETING

With no further items to discuss, Mayor Connelly adjourned the meeting.

Respectfully submitted,

Rachel Manning, Secretary

Transportation Advisory Committee

Attachment 9a Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Amendments to the 2020-2029 Metropolitan Transportation Improvement Program (MTIP)

Purpose: To amend the 2020-2029 Greenville Urban Area MPO's Metropolitan Transportation Improvement Program (MTIP) to add new projects programmed.

Additions

1. HS-2015DIV – Division Safety Projects
Various, vulnerable road user pedestrian/ bicycle improvement program excluding Grand Strand MPO
 - Add project break at the request of the transportation mobility and safety division

2. HS-2015REG – Regional Safety Projects
Various, vulnerable road user pedestrian/ bicycle improvement program excluding Grand Strand MPO
 - Add project break at the request of the transportation mobility and safety division

3. HS-2015SW – Statewide Safety Project
Various, vulnerable road user pedestrian/ bicycle improvement program excluding Grand Strand MPO
 - Add project break at the request of the transportation mobility and safety division

Action Needed: Request the Joint Governing Committee approve the amendments to the 2020-2029 Metropolitan Transportation Improvement Program (MTIP).

* INDICATES FEDERAL AMENDMENT

**RESOLUTION NO. 2023-08-GUAMPO
REQUESTING THE AMENDMENT OF THE STATEWIDE TRANSPORTATION
IMPROVEMENT PROGRAM FOR FY 2020-2029**

WHEREAS, the Transportation Advisory Committee for the Greenville Urban area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has reviewed the current FY 2020-2029 Statewide Transportation Improvement Program and found the need to request an amendment;

WHEREAS, the following amendment to the FY 2020-2029 Metropolitan Transportation Improvement Program has been approved;

(see Exhibit attached hereto)

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the amendments of the FY 2020 - 2029 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

Today, September 13, 2023,

P.J. Connelly,
Chairperson Transportation
Advisory Committee
Greenville Urban Area MPO

Secretary

Attachment 9b

Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Adoption of the 2024-2033 Metropolitan Transportation Improvement Program (MTIP)

Purpose: To approve the draft Greenville Urban Area MPO's 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

Discussion: The Transportation Improvement Program (TIP) is a 10-year federally mandated work program that identifies construction funding and scheduling of transportation projects within the MPO and state. The TIP is fiscally constrained and adopted every two years but can be amended as needed. The State Transportation Improvement Program (STIP) contains all of the transportation projects in the state and must be consistent with the Metropolitan Transportation Improvement Program (MTIP), which is all of the transportation projects within the MPO region. All projects in the MTIP are also in the STIP and must be consistent and match with the Metropolitan Transportation Plan (MTP).

In June of 2023, NCDOT's Board of Transportation (BOT) approved the 2024-2033 State Transportation Improvement Program (STIP). GUAMPO staff reviewed the STIP and provided a brief summary document in the previous committee meetings in June and July. As a reminder, this STIP has been developed solely by using existing committed projects from the current 2020-29 STIP document and does not include any new projects from Prioritization 6.0, which was halted in Summer 2021. A copy of the Draft TIP projects for the Greenville Urban Area MPO area in Excel format can be found [here](#). The Excel of the 2024-2033 STIP includes a simplified project listing in the 2024-2033 STIP tab, while the 2024-2033 STIP Funding Details tab shows the funding breakdown per source and project phase (e.g., utilities, construction). Additionally, attached below is the funding breakdown of the 2024-2033 STIP with both Region B as well as Division 2.

The Board's adoption of the STIP in June leaves the MPO to consider and adopt the local portion of the STIP (Metropolitan Transportation Improvement Program, or MTIP).

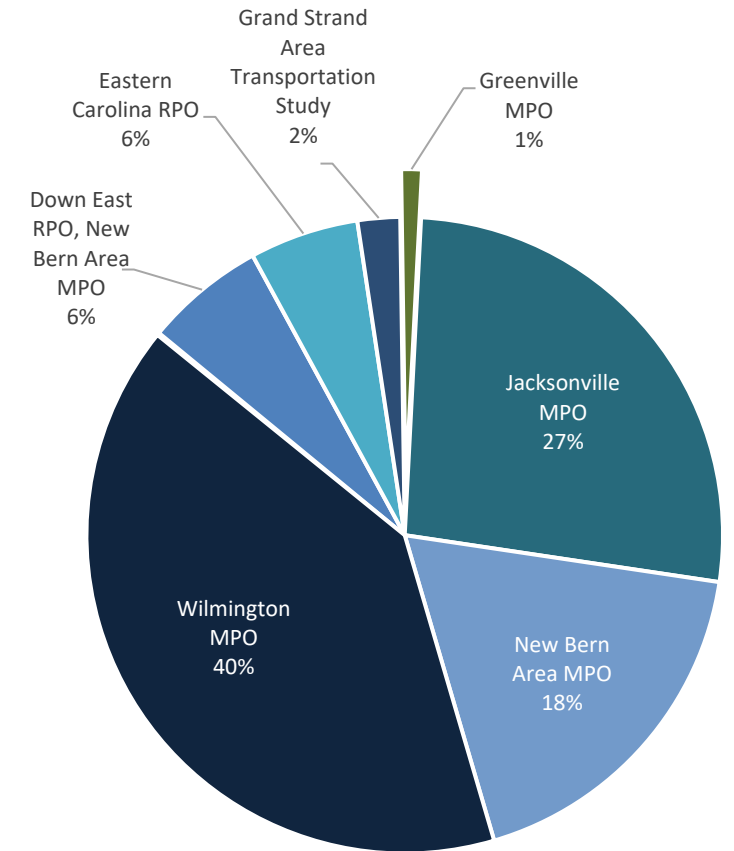

Action Needed: Request the Joint Governing Committee approve the draft of the 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

Attachments: *2024-2033 STIP Funding Breakdown, Draft GUAMPO Metropolitan Transportation Improvement Program; Greenville Urban Area Resolution 2023-09-GUAMPO*

Greenville Urban Area Metropolitan Planning Organization

DRAFT **2024-2033** **Metropolitan Transportation** **Improvement Program**

to be adopted

September 2023

The NCDOT has demonstrated fiscal constraint on the 2024-2033 STIP adopted on 6/6/2023. The Greenville MPO TIP is a subset of the STIP and by extension therefore demonstrates fiscal constraint. The Greenville Urban Area MPO has established performance management targets for highway safety, infrastructure condition, congestion, system reliability, emissions, freight movement and transit. The Greenville Urban Area MPO anticipates meeting their identified targets with the mix of projects included in the FY 2024-2033 TIP.

**NORTH CAROLINA 2024 – 2033
STATE TRANSPORTATION IMPROVEMENT PROGRAM**

What is a State Transportation Improvement Program (STIP)?

The STIP is a multi-year capital improvement document which denotes the scheduling and funding of construction projects across the state over a minimum 4-year time period as required by Federal law. North Carolina's STIP covers a 10-year period, with the first five years (2024-2028 in this version) referred to as the delivery STIP and the latter five years (2029-2034 in this version) as the developmental STIP. Per 23 CFR 450.216 & 23 U.S. Code § 135 STIP's must also:

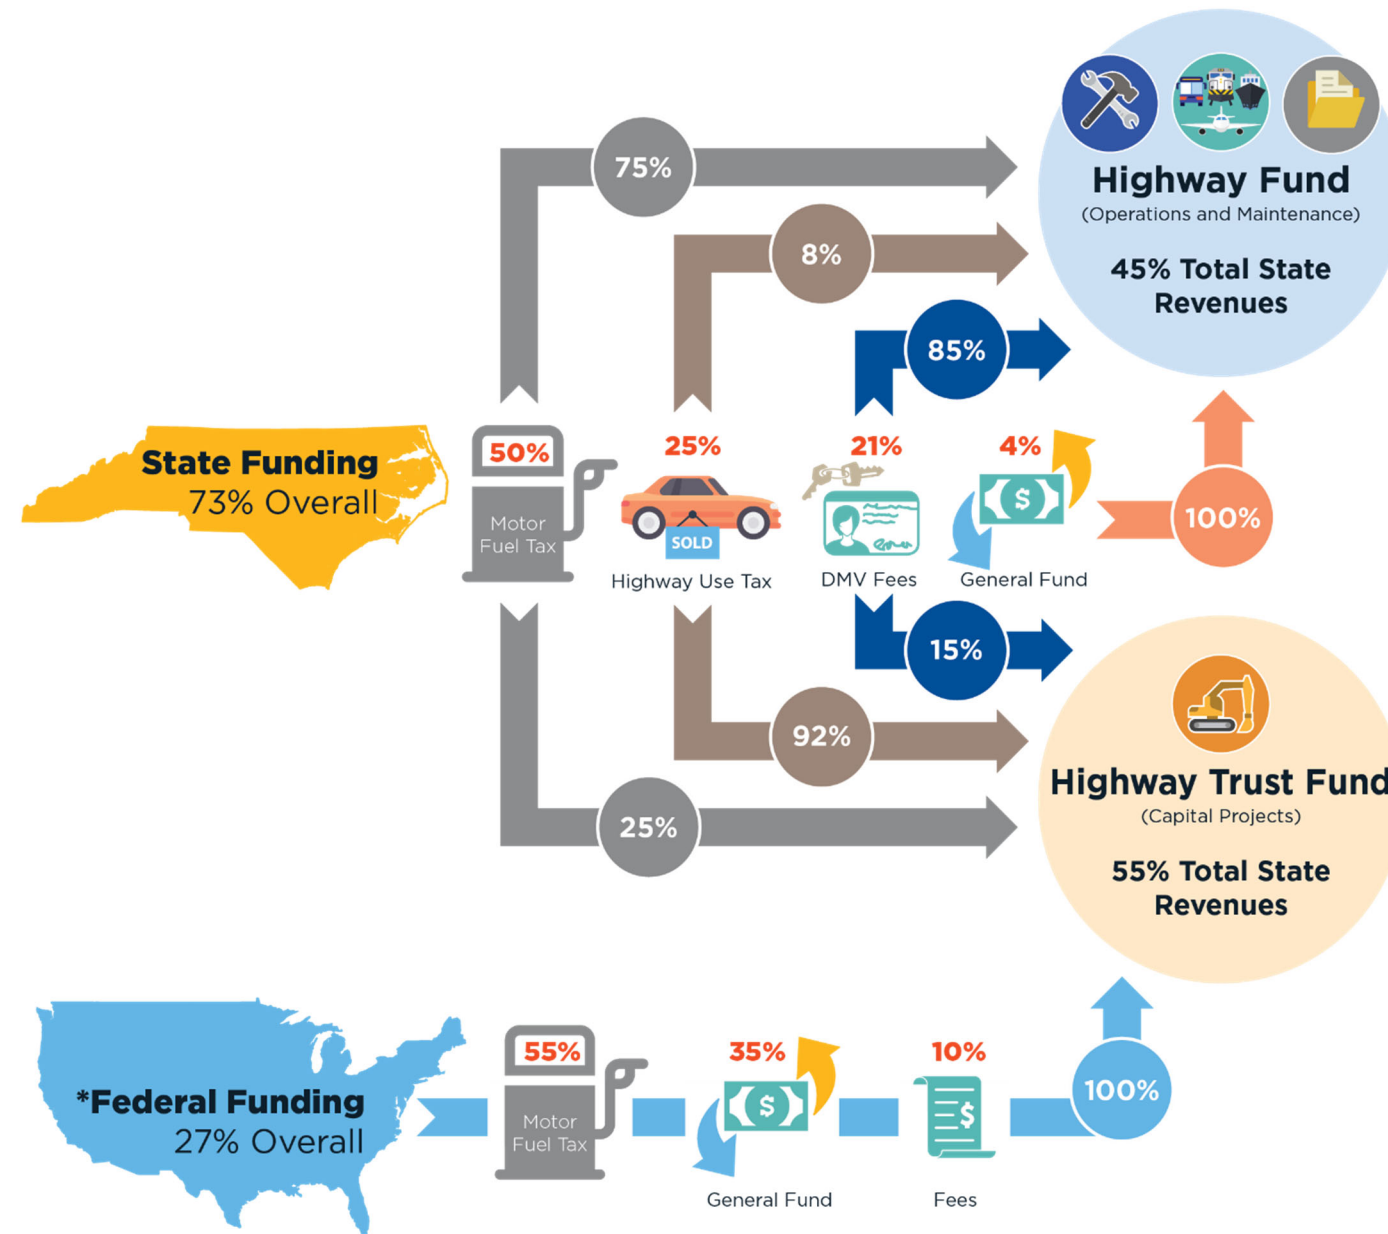

- Be submitted to Federal Highway Administration (FHWA) & Federal Transit Administration (FTA) for approval at least every 4 years
- Be fiscally constrained by year
- Include all capital and non-capital projects using Title 23 USC or Title 49 USC funds, other than certain safety, planning, and research funds
- Include metropolitan TIPs from Metropolitan Planning Organizations
- Provide public comment opportunity on STIP document
- And include the following information:
 - Project description and termini
 - Estimated total cost (NCDOT includes Utility, R/W, and Construction costs)
 - Federal funds to be obligated
 - Responsible agency (such as municipality)

North Carolina's STIP is typically updated every two years (but no later than every four years) and developed in concert with federal and state revenue forecasts, North Carolina Department of Transportation's (NCDOT's) Strategic Prioritization process, preconstruction, and project development timetables, and in adherence with federal and state laws. North Carolina state law requires Board of Transportation (BOT) action to approve the STIP.

This is the fourth STIP developed under the Strategic Transportation Investments (STI) law passed in June 2013. This landmark legislation elevates the use of transportation criteria and the input of local communities to determine project priorities and directs the use of dollars for transportation projects.

Maintenance and Capital Improvement Funding for North Carolina

NCDOT uses three major sources of funds for transportation improvements. Federal Funding and State Highway Trust Funds are used for capital improvements while the Highway Fund is used for maintenance activities. The chart below illustrates these funds and their sources.

* IJA's USDOT FHWA and FTA FFY 2022-23 Allocations

Performance Management Targets

NCDOT has established performance management targets for highway safety (established in the Strategic Highway Safety Plan (SHSP)), transit tier 2 providers that choose to participate in NCDOT's Group Transit Asset Management (TAM) Plan, and performance management targets for infrastructure condition, congestion, system reliability, emissions, and freight movement. The NCDOT anticipates meeting their identified targets with the State funded Highway Maintenance Improvement Program (HMIP) and the mix of projects included in the STIP aided by the Strategic Transportation Investments Prioritization and Programming process. The HMIP is a State funded program of projects that are programmed outside of the STIP. NCDOT collects data and other information at regular time intervals from the transit agencies relative to measure and assess progress toward meeting performance targets.

In North Carolina, pavement and bridge performance is primarily impacted through state funded programs that are managed outside the STIP. The Department's HMIP, identifies planned maintenance activities for a five-year time period, which include pavement, bridge and other general maintenance projects across our entire roadway network. The amount of funding provided through these state funded programs is roughly equivalent to the amount of state and federal funding programmed in the STIP over the same time period. In relation to NHS specific routes, the STIP does include some specific federal funding for interstate pavement and bridge maintenance through our own internal interstate maintenance program. Federal funding for bridges included in the STIP is applied primarily to non-NHS bridges. While the STIP can have an impact to the condition of our NHS pavements and bridges, specifically on the interstate system, the majority of the funding impacting the condition of our pavements and bridges is managed outside the STIP.

Public transit projects included in the STIP align with the transit safety planning and target setting process undertaken by the transit agencies and MPOs. While the North Carolina DOT aided with the development of a template for the initial Public Transportation Agency Safety Plans (PTASPs), each large urban transit provider is responsible for implementing its PTASP, which includes transit safety targets. Investments are made in alignment with PTASPs with the intent of keeping the state's public transit operations, vehicles, and facilities safe and meeting transit safety targets. State and federal funding sources that can be used by transit agencies for operations, vehicles, and facility improvements are outlined in the Public Transportation Project Funding section of the NCDOT 2024-2033 Current STIP. Individual transit agencies determine the use of these sources for capital and operating expenses based on their local needs.

How is the STIP organized?

The STIP contains funding information and schedules for transportation modes and programs including: Highways, Aviation, Bicycle and Pedestrian, Ferry, Public Transportation, Rail, Governor's Highway Safety and statewide related programs. The Appendix also contains a reference list of completions and deletions since the 2020-2029 STIP which was approved in 2019.

The transportation program in the STIP is organized in an Excel file that can be sorted and filtered as needed by the reader. The information included for each project includes details on the location of the project: County, NCDOT Highway Division, Route, Description, and Planning Organization. Projects also list the STI category they are funded from, i.e., by Statewide Mobility, Regional Impact, or Division Needs. The phases of projects (such as Right of Way (R), Utility relocation (U), and Construction (C)) are listed by Fiscal Year along with their costs and anticipated funding sources. For those projects with their first phase of work beginning in the second half of the STIP (years 2029-2033), they are listed as "Funded for Preliminary Engineering Only." The Department will begin Preliminary Engineering activities (environmental documentation and design work) at the appropriate time, but the project will need to compete for funding in a future round of Prioritization and therefore the funding years for phases are unknown at this time. (See next section titled "Strategic Prioritization" for details on project prioritization.)

All projects require extensive planning, environmental impact and design studies. The location and exact type of improvements are subject to refinement and modification during the planning and design phases.

Strategic Prioritization

The Department manages a strategic project prioritization process known as Prioritization. Strategic prioritization uses transportation data, input of local government partners, and the public to generate scores and ultimately rankings of projects across the state. Multiple public input opportunities were provided during the spring and summer of 2020 regarding the submittal of new projects assisting each Metropolitan Planning Organization (MPO), Rural Planning Organization (RPO), and NCDOT's transportation Divisions.

The P6.0 process (the most recent generation of Prioritization) was organized similarly to previous prioritization cycles and resulted in each transportation mode using different quantitative criteria, measures, and weights to provide technical scores for projects as recommended by the Prioritization Workgroup and approved by the NC Board of Transportation. Also, per the intent of STI for transportation modes to compete for funding, a normalization process was recommended to create minimum percentages of funding for highway and non-highway projects in the combined Regional Impact and Division Needs categories. The minimum percentage for highways was 90% and minimum percentage for non-highways was 4%. These percentages guided the programming process, which ultimately yielded a 95% to 5% highway vs non-highway programmed amount in the combined Regional Impact and Division Needs categories.

P6.0 Highway Criteria & Weights:

Mobility Projects (Roadway Widening, Intersection/Interchange Improvements, Access Management):

Statewide Mobility		Regional Impact		Division Needs	
30%	Congestion	20%	Benefit-Cost	15%	Benefit-Cost
25%	Benefit-Cost	20%	Congestion	15%	Congestion
25%	Freight	10%	Accessibility/Connectivity	10%	Safety
10%	Economic Competitiveness	10%	Freight	5%	Accessibility/Connectivity
10%	Safety	10%	Safety	5%	Freight

Modernization Projects (Modernize Roadway, Upgrade Freeway to Interstate):

Statewide Mobility		Regional Impact		Division Needs	
25%	Freight	25%	Safety	20%	Safety
25%	Safety	10%	Freight	10%	Pavement Condition
20%	Paved Shoulder Width	10%	Lane Width	10%	Paved Shoulder Width
10%	Congestion	10%	Pavement Condition	5%	Freight
10%	Lane Width	10%	Paved Shoulder Width	5%	Lane Width
10%	Pavement Condition	5%	Congestion		

P6.0 Aviation Criteria & Weights

Statewide Mobility		Regional Impact		Division Needs	
40%	NCDOA Project Rating	30%	NCDOA Project Rating	25%	NCDOA Project Rating
30%	FAA ACIP Rating	15%	Benefit/Cost	10%	Benefit/Cost
20%	Benefit/Cost	15%	FAA ACIP Rating	10%	FAA ACIP Rating
10%	Constructability Index	10%	Constructability Index	5%	Constructability Index

P6.0 Bicycle/Pedestrian Criteria & Weights

Statewide Mobility		Regional Impact		Division Needs	
(not eligible)	(not eligible)	20%	Safety		
		15%	Accessibility/Connectivity		
		10%	Demand/Density		
		5%	Cost Effectiveness

10%	Capacity and Diversion	10%	Economic Competitiveness	10%	Safety
10%	Economic Competitiveness	10%	System Opportunities	5%	Economic Competitiveness

Due to rising costs for projects funded in the previously adopted 2020-2029 STIP, little to no funding was projected to be available for new projects in the 2024-2033 STIP timeframe. Therefore, on August 4, 2021, the Prioritization Workgroup recommended, and the N.C. Board of Transportation approved, the P6.0 prioritization cycle be halted. The decision was made to develop the 2024-2033 STIP using existing projects from the previously adopted 2020-2029 STIP. The conclusion of the P6.0 cycle was the release of the quantitative scores and the local input point procedure was halted. The P6.0 Workgroup was reconvened to finalize the methodology and procedures used for this one-time STIP development exception and the N.C. Board of Transportation approved the process. Projects with current construction schedules in the first three years (2024-2027), projects with right-of-way actively underway, and those with federal grants were programmed first; followed by a seniority approach of combined factors as oldest Prioritization cycle and highest scoring projects. There were no newly submitted projects from the P6.0 prioritization cycle included in the 2024-2033 STIP.

Figure A

However, it does not necessarily mean that projects will be scheduled in the STIP in the order of their score and rank. There are other considerations and factors in developing the actual program (Figure A). A major factor in deciding when the top scoring projects are funded is project delivery time. Projects need to fulfill a series of environmental and preliminary engineering requirements, right-of-way must be purchased, utility relocation (where applicable) must be addressed, and final plans must be developed for lettings. The time period to accomplish these activities can be lengthy. Construction funding cannot be allocated to projects before these preconstruction activities have taken place.

There were also STI law provisions (including a corridor cap and individual modal caps) which directed programming decisions and the entire program had to meet budget tests and fiscal constraint per state and federal requirements. STI law also included a provision to exempt from prioritization select projects (Transition Period Projects) scheduled to be obligated for construction prior to July 1, 2015. In addition, projects funded for right-of-way or construction in the first 6 years of the previous 2020-2029 STIP, were considered committed (now called “Scheduled for Delivery”) and were not evaluated in P6.0. However, the funding required for both the transition and committed projects was accounted for when budgeting for other projects.

Public Involvement – Draft STIP

After the release of the Draft STIP in August 2022, each of NCDOT’s 14 transportation divisions hosted a weeklong open house between September 1, 2022 and October 28, 2022. The purpose of these open houses was to inform citizens about projects in the Draft STIP and collect feedback. Additionally, multiple public input opportunities were available ahead of the development of the Draft STIP including the STI implementation process.

Each open house allowed participants to study maps of projects in the Draft STIP and review proposed project schedules and information with Department staff. Sessions were held in transit accessible locations and the Department provided auxiliary aids for participants under the Americans with Disabilities Act as well as special services for English limited participants. Consultation was conducted with stakeholder groups throughout North Carolina via emails and direct mailing to encourage participation via multiple feedback options. In addition, the department provided the ability for citizens to take an online survey as well as provide comments online, by phone or mail.

Transportation Conformity

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit in *South Coast Air Quality Mgmt. District v. EPA* (“South Coast II,” 882 F.3d 1138) held that transportation conformity determinations must be made in areas that were either nonattainment or maintenance for the 1997 ozone national ambient air quality standard (NAAQS) and attainment for the 2008 ozone NAAQS when the 1997 ozone NAAQS was revoked. These conformity determinations are required in these areas after February 16, 2019. The Research Triangle Region, the Rocky Mount Region were “maintenance” at the time of the 1997 ozone NAAQS revocation on April 6, 2015 and were also designated attainment for the 2008 ozone NAAQS on May 21, 2012. Therefore, the Research Triangle Region, the Metrolina Region, and the Rocky Mount Region will make their conformity determinations as per the 1997 ozone NAAQS on their MTPs and their 2024-2033 TIP. The Metrolina Region will also make their conformity determinations as per the 2008 ozone NAAQS on their MTPs and their 2024-2033 TIP.

Each MPO is required to develop a 20+ year Metropolitan Transportation Plan (MTP). In MPOs that are listed as either a non-attainment or maintenance air quality area, Transportation Conformity must be demonstrated on all plans, projects and TIPs. This ensures that transportation projects that receive federal funding conform to the intent of the air quality State Implementation Plan (SIP). Projects must be grouped by horizon year and the travel demand model must be run for each horizon year. From the travel demand model, speeds and Vehicle Miles Traveled (VMT) are obtained and used in the air quality model to calculate emissions that are compared to the budgets approved by the US Environmental Protection Agency (EPA). As long as the calculated emissions are less than the budget, the area can make a conformity finding. If the area cannot meet the budget, then the MPO’s project list does not meet the transportation conformity test and the area may be subject to lapse. A lapse can delay projects as federal actions cannot take place during a lapse and only exempt projects can move forward. A revised Transportation Conformity analysis can be triggered whenever a project is delayed or accelerated such that it crosses a horizon year. Whenever an MPO develops a new MTP, a new conformity analysis must be performed. When a new TIP comes out, the new TIP must be checked to make sure it is consistent with the MTP. If there is any inconsistency between the TIP and the MTP (conformity finding) then FHWA cannot take any federal action including approval of the TIP until this inconsistency is resolved.

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit in the *South Coast Air Quality Mgmt. District v. EPA* case (“South Coast II,” 882 F.3d 1138) held that transportation conformity determinations must still be made in areas that were either nonattainment or maintenance for the 1997 ozone national ambient air quality standard (NAAQS) and attainment for the 2008 ozone NAAQS when the 1997 ozone NAAQS was revoked. However, these conformity determinations may be made without the requirement of a Regional Emissions Analysis (REA) and comparison to the emission budgets approved by the US EPA. Consistency between the TIP and MTP must still be ensured.

North Carolina 2008 Ozone Maintenance Area Requiring a REA

Public Transportation Project Funding

The projects listed in the STIP are funded from various Federal Transit Administration (FTA), Federal Highway Administration (FHWA) and North Carolina State Funds, many requiring a state and/or local funding match. Annually, the NCDOT Integrated Mobility Division (IMD) provides state funds to assist in meeting these match requirements. The amount available for state match is limited to the amount appropriated by the General Assembly.

FTA program funding apportionment amounts are published annually in the Federal Register and posted to the FTA website. NCDOT uses these apportionments to allocate funding to qualifying sub-recipients. Most FTA funding apportioned to urbanized areas with a population of 200,000 or greater is managed directly by the MPO or transit agency. The MPO develops projects that appear in the STIP, using, in part, funds received directly from FTA. NCDOT IMD allocates federal funds to small urban areas less than 200,000 population and rural, non-urbanized areas of the state. MPOs and NCDOT IMD develop projects and programs that appear in the STIP using appropriated and apportioned federal and state funding amounts, including unobligated prior year funding. Amendments or modifications are made to the STIP for transit projects when the funding amount changes from the amount contained in the approved STIP.

The following Federally funded programs appear in the STIP:

A. Metropolitan Planning and Statewide Planning Program (Section 5303 / 5304)

Provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and states that are cooperative, continuous and comprehensive, resulting in long-range plans and short-range programs that reflect transportation investment priorities. These planning programs are jointly administered by FTA and the FHWA, which provides additional funding to MPOs.

IMD Goals:

- 5303 – Create a fair and equitable distribution of planning funds to urbanized areas (UZAs) and foster transit planning on a regional and inter-regional scale.
- 5304 – Provide for statewide planning and technical studies.

B. Urban Area Formula Program (Section 5307)

Makes Federal resources available to qualifying areas for transit capital, operating assistance, and transportation planning in MPOs and urbanized areas with a population of 50,000 or more as designated by the U.S. Department of Commerce, Bureau of the Census.

IMD Goals:

- 5307 Governor's Apportionment (GA) – Work with small, urbanized areas to offer technical assistance, as needed. Section 5307 grants are managed by the FTA direct recipient in these small, urbanized areas.
- 5307 Large Urbanized Areas – Work with large urbanized areas for technical assistance, as needed.

C. Enhanced Mobility of Seniors and Individuals with Disabilities Program (Section 5310)

Improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas – large urbanized (over 200,000 population), small urbanized (50,000-200,000 population), and rural (under 50,000 population). Eligible projects include both traditional capital investment and nontraditional operational assistance investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services.

IMD Goal:

- Support transportation of seniors and persons with disabilities in small, urbanized areas (50,000-200,000 population) and rural North Carolina (less than 50,000 population).

D. Rural Formula Grant Program (Section 5311)

Provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000, where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program (RTAP), Intercity Bus (5311(f)) and Appalachian Development Transportation Assistance Program. North Carolina is one of 13 states receiving the Appalachian Development grants in the following 29 counties: Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Davie, Forsyth, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Stokes, Surry, Swain, Transylvania, Watauga, Wilkes, Yadkin, and Yancey.

IMD Goals:

- Support general public transportation in rural North Carolina (less than 50,000 population) and provide a coordinated transportation network.
- Enhance access in rural areas to health care, shopping, education, employment, public services and recreation.
- Encourage the most efficient use of transportation funds to provide passenger trips in rural areas through coordination of programs and services.

E. Bus and Bus Facilities Program (Section 5339)

Provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

IMD Goal:

- Support the small urban and statewide funding program to provide capital funds to replace, rehabilitate and purchase buses and related equipment and construct bus-related facilities.

F. Public Transportation Safety Program – State Safety Oversight (Section 5329)

Provides funds for program operational and administrative expenses, including employee training activities. This funding is provided to North Carolina to support the rail fixed guideway public transportation systems in the City of Charlotte. This funding is administered by the NCDOT Rail Division.

IMD Goal:

- Provide any needed technical assistance and support to the NCDOT Rail Division as it administers these funds.

G. State of Good Repair (Section 5337)

Provides capital funds for maintenance, replacement and rehabilitation projects of high-intensity fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair. Additionally, State of Good Repair grants are eligible for developing and implementing Transit Asset Management Plans. This funding is apportioned directly to the systems in the State with fixed guideway systems. This FTA funding is not administered by IMD.

H. Capital Investment Grant (CIG) Program (Section 5309)

The FTA discretionary grant program funds transit capital investments, including heavy rail, commuter rail, light rail, streetcar and bus rapid transit. Federal transit law requires transit agencies seeking CIG funding to complete a series of steps over several years. For New Starts and Core Capacity projects, the law requires completion of two phases in advance of receipt of a construction grant agreement – Project Development and Engineering. For Small Starts projects, the law requires completion of one phase in advance of receipt of a construction grant agreement – Project Development. This FTA funding is not administered by IMD.

Project Descriptions

EPA's Transportation Conformity Regulation states "The degree of specificity required in the transportation plan and the specific travel network assumed for air quality modeling do not preclude the consideration of alternatives in the NEPA process of other project development studies." In an effort to not unduly influence the outcome of NEPA studies the STIP has used fairly generic descriptions of proposed work although the cost estimates were derived from specific future cross sections. In future documents, more specific descriptions will be used as the NEPA process determines a preferred alternative. So, while the out years 6 through 10 may use a description like "widen to multi-lanes" as the NEPA process defines a recommended cross section this may become "widen to 4 lane median-divided cross section" as the project comes closer to having right of way and construction actually funded.

PROGRAM BUDGETS

Transportation Revenue Forecast

State Budget

State transportation revenues are derived from four sources: user fees in the form of Motor Fuel Tax (MFT), driver and vehicles fees collected by the NC Division of Motor Vehicles (DMV Fees), a Highway Use Tax (HUT) on vehicle title transfers, and a portion of the state sales tax proceeds. Federal transportation revenues are derived from a federal MFT tax, commercial vehicle fees, and transfers from the U.S. General Fund. North Carolina's total transportation funding consists of roughly 75 percent state revenues and 25 percent federal revenues.

State revenue projections are developed using a consensus forecast process by the Office of State Budget and Management (OSBM), Legislative Fiscal Research Division, and NCDOT. Budget estimates developed for the Governor's biennial budget serve as a base from which NCDOT and OSBM staff develop the forecast for the remaining years. The OSBM and NCDOT forecasts are produced using numerous data sources, but largely rely on economic data and research produced by S&P Global, a private financial forecasting company and in-house consumption forecasting models, and internal historical data. Motor fuel tax revenues are forecast using crude oil prices, and estimates for consumption, fuel efficiency, and miles travelled. Highway Use Tax (HUT) revenue forecasts are based on historical data and predicted values for new and used vehicle transactions and vehicle price. Sales tax revenue forecasts rely on economic measures, such as gross national product (GNP), personal income, and the consumer price index (CPI). DMV fee revenue forecasts are based on historical transactional information, such as vehicle registration and licensed driver data, and OSBM population projections. DMV title fee estimates are obtained using licensed driver and vehicle registration data. The number of vehicle transactions, vehicle price, motor fuel consumption, the purchase of goods and services, and sales tax revenues correlate strongly with economic conditions. Generally, DMV fees correlate with projected changes in population. Title fees closely correlate to forecasted changes in vehicle sales.

The motor fuel tax rate is adjusted annually based on a variable rate formula that measures changes in population and the Consumer Price Index for Energy (CPI-E). Effective January 1, 2023, the motor fuel tax rate is 40.5 cents per gallon. DMV fees are adjusted every four years based on changes in the CPI. HUT and sales tax rate changes are made by acts of the North Carolina General Assembly.

Federal Budget

After a one-year extension of the Fixing America's Surface Transportation Act, or "FAST Act", President Biden signed into law the five-year \$1.2 trillion Infrastructure Investment and Jobs Act (IIJA) on November 15, 2021. The IIJA largely maintains current program structures and funding shares between highways and transit, but it includes significant expansions in funding, new discretionary and competitive grant programs, and two new formula programs. The law emphasizes the goals of creating a resilient, efficient, safe, and connected transportation system. The formula programs are:

- National Highway Performance Program (NHPP)
- Surface Transportation Block Grant Program (STBG)
- Congestion Mitigation and Air Quality Improvement Program (CMAQ)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Crossings (subset of the HSIP)
- Metropolitan Planning
- Construction of Ferry Boats and Ferry Terminal Facilities
- Transportation Alternatives (TA)
- National Highway Freight Program
- Carbon Reduction Program
- PROTECT Program
- Bridge Program
- National Electric Vehicle Formula Program

Federal transportation funding is distributed by USDOT based on Congressional multi-year reauthorization bills and annual appropriation acts. The federal MFT rate, set by Congress in 1993, is 18.4 cents per gallon for gasoline and 24.4 cents per gallon for diesel fuel. Unlikely prior multi-year reauthorization bills, the IIJA legislation was approved by Congress using record General Fund transfers and advanced appropriations which have been assumed to be partially continue past the expiration of IIJA in federal FY 2026.

Federal Aid Program

The Federal Aid Program consists of many funding categories. Funding in most of these individual categories is subject to overall federal budget constraints and Federal Obligation Limitation. The obligation limitation effectively limits the amount of federal funds that can be utilized in any one year.

North Carolina’s availability of federal funds for the STIP is expected to be about \$1,497 million in FY 2024 and \$1,522 in FY 2025.

Virtually all federal-aid projects require a local or state fund contribution. Most highway and transit programs require a 20% local or state share. The amount of matching funds needed for the Federal Aid Program is expected to be approximately \$359 million in FY 2024 and \$365 million in FY 2025, most of which will be funded by the State Highway Trust Fund.

**Federal Aid Construction Program – FFY 2024
(\$ in Millions)**

Category	Federal Funds	Required Matching Funds	Total

During the balancing of the State Transportation Improvement Program (STIP), the program is fiscally constrained to the amount of funds projected to be available each year to prevent the Department from over committing future revenues. NCDOT extensively uses “Advance Construction” (AC), which allows states to begin a project even in the absence of sufficient federal-aid obligation authority to cover the federal share of project costs. It is codified in Title 23, Section 115. Advance Construction eliminates the need to set aside full obligational authority before starting projects. As a result, a state can undertake a greater number of concurrent projects than would otherwise be possible. In addition, Advance Construction helps facilitate construction of large projects, while maintaining obligational authority for smaller ones.

Prior to authorizing a project (or phase of a project), a federal agency is typically required to obligate the total amount of funds needed to complete the project (or phase). So, if NCDOT plans to construct a project estimated to cost \$40 million without using Advance Construction, Federal Highway Administration (FHWA) would need to obligate their full share, typically 80 percent, or \$32 million; even though some of those funds will not be needed for several years.

Advance Construction allows FHWA to authorize the project without obligating the funds needed to complete the project. Under an Advance Construction authorization, FHWA does not commit the federal government to funding the project but makes the project eligible for reimbursement at a later date as federal funds become available.

As an Advance Construction project progresses, NCDOT will obligate federal funding and bill FHWA for expenditures that have occurred (typically at 80 percent). For instance, if after a year of construction, the \$40 million construction project described above has \$10 million of expenditures and federal funds are available, NCDOT may obligate \$8 million of federal funds and send FHWA a bill for \$8 million.

In March 2021, NCDOT developed a policy to govern the use of Advance Construction. This policy requires a yearly analysis of the Advance Construction program to ensure that the use of Advance Construction is within prescribed limits. The results of this analysis are posted on the Department’s website and reported to the Board of Transportation.

When analyzing Advance Construction usage at NCDOT, a distinction is made between Advance Construction used for Grant Anticipation Revenue Vehicles (GARVEE) bonded projects and non-GARVEE traditional Advance Construction projects. GARVEE is a type of bond or similar financing method used by a state to finance transportation projects and is a specific type of Advance Construction. Outstanding GARVEE debt is considered in the yearly Advance Construction analysis by reserving the funds that are needed to make the bond payments. However, GARVEE AC balances should be viewed differently since they are long-term well-defined commitments. The North Carolina General Assembly has imposed restrictions on the use of GARVEE to ensure that the Department’s use of this funding technique remains within reasonable levels. Prior to the issuance of GARVEE bonds, the limits imposed by the General Assembly are checked to ensure that the Department will remain in compliance. State law constrains the total amount of GARVEE debt such that the total GARVEE outstanding principal amount cannot exceed the previous year’s total federal budget authorization, or the debt service cannot exceed 20 percent of anticipated annual future federal revenues.

Since non-GARVEE Advance Construction is more fluid, a yearly analysis is required by the Department’s Advance Construction policy. The Advance Construction levels for non-GARVEE projects are subject to the following two limits:

- Amount of unreimbursed state funds expended (by funding source) should not exceed 1 year of federal apportionments.
- AC balance (by funding source) should not exceed 4 years of anticipated federal apportionments.

The table on the following page provides the projected non-GARVEE balances for FY 2024 through FY 2027 in the two largest categories, National Highway Performance Program (NHPP) and Surface Transportation Block Grant Program (STBG) as well as our Highway Safety Improvement Program (HSIP).

	National Highway Performance Program				Surface Transportation Block Grant				Highway Safety Improvement Program			
	2024	2025	2026	2027	2024	2025	2026	2027	2024	2025	2026	2027

NOTE: Dollars in thousands and exclude GARVEE.

GARVEE Bonds

In 2005, House Bill 254 authorized NCDOT to issue Grant Anticipation Revenue Vehicles (GARVEE bonds) to finance federal aid highway projects. All funds derived from GARVEE bonds are backed by the receipt of future federal funds and no state funds may be committed to the debt service. Below is a summary of the GARVEE bond issuances and debt service requirements.

GARVEE Bond Program (\$ in Millions)

BUILD NC Bonds

In 2018, Senate Bill 758 authorized NCDOT to issue Build NC bonds to finance highway projects at the regional impact and divisional need project categories. Subject to appropriation by the General Assembly, funds from the Highway Trust Fund shall be the source for repayment of debt service. Below is a summary of Build NC bond debt service requirements.

State Highway Trust Fund

Revenues for the Trust Fund are generated from state motor fuels tax, the highway use tax (transfer of motor vehicle titles), DMV titles and other fees, sales tax transfer from the general fund and interest income (as shown in the graphic on page T-2). \$49 million of Trust Fund revenues are transferred each year to the NCTA for project funding, as well as \$45 million to the State Ports.

The STIP budget is based on a consensus forecast by the OSBM, Legislative Fiscal Research Division, and NCDOT. These estimates were used to develop the draft program and are the basis for air quality and fiscal constraint tests. The Trust Fund revenues are projected to be about \$2.2 billion for FY 2024 and \$26.3 billion during the 10-year period. Of this \$26.3 billion in revenue, \$490 million goes to NCTA, \$611.6 million is used for program administration, \$4 million is transferred to the Highway Fund for Visitor Centers and \$450 million is transferred to State Ports. The remaining \$24.8 billion is available for STIP purposes. After preliminary engineering, the state match for federal planning (SPR) funds, inflation, and bonus allocation, \$19.4 billion is available for programming.

Anticipated Inflation Impact

Inflation is not explicitly factored into the above revenue estimates. However, before programming projects in the STIP, available funds were reduced to account for future inflation. NCDOT uses a 3% per year inflation factor. The 3% was compounded annually for the first five years, then held constant for the last five years. In the first year (2024), ½ of the inflation rate was used (1.5%) to ramp up to the 3% in year 2 (2025). This allows project costs used in the Program to be shown in current (2024) dollars.

State Highway Fund

Revenues for the Highway Fund are generated from the state motor fuels tax and DMV fees. The Highway Fund primarily supports projects that maintain the state's existing transportation system. This includes general maintenance, roadside environmental activities, resurfacing highways, replacing bridges, paving unpaved secondary roads, and state aid to municipalities. Funds are distributed across North Carolina based on need.

Cash Model and Fiscal Constraint of the STIP

In a traditionally financed federal-aid highway project, the FHWA approves the project and obligates (promises to pay) federal funds (typically 80 percent of eligible costs) at the start of a contract. The Department then begins construction, pays construction costs with state funds, and submits weekly federal reimbursement requests to FHWA. However, at its discretion, NCDOT may also use a funding technique called Advance Construction. In Advance Construction, the FHWA only approves a project as being eligible for federal funding and does not obligate (promise to pay) federal funds at the start of a project. The Department then begins construction, pays construction costs with state funds, submits a request to obligate an amount of federal funds necessary for reimbursement of a percentage of eligible costs (typically 80 percent), and submits a request for reimbursement to FHWA.

NCDOT heavily utilizes Advance Construction because it allows the Department to accelerate projects by undertaking a greater number of concurrent federal-aid projects than would otherwise be possible. However, when Advance Construction is utilized, care must be taken to ensure that adequate funds will be available to implement the schedule of projects included in the STIP. NCDOT relies on its cash model to insure fiscal constraint of both the STIP and its entire operation. The Department uses a cash model to manage its operation on a cash-flow basis using statistical models that were developed specifically to support NCDOT programs. The models are used to forecast future cash demands and financial capacity.

North Carolina's General Assembly in §143C:6-11 dictates that the Department's cash target to be between 15% and 20% of the total appropriations from the Highway Fund and Highway Trust Fund for the current fiscal year. Any federal funds on hand shall not be considered as cash for this purpose. The target shall include an amount necessary to make all municipal-aid funding requirements. Also, NCGS §143C:6-11 requires the minimum cash balance from the Highway Fund and Highway Trust Fund to be at least 7.5% of the total appropriations for the current fiscal year. If this minimum is not maintained, no further transportation project contract commitments may be entered into until the cash balance has been regained. The Department may modify or supplement transportation contract commitments for existing transportation projects that (i) results in a savings from the total estimated project cost of the existing commitment, based on cost-savings analysis, or (ii) relate to the needs of an existing transportation project to continue. Any federal funds on hand shall not be considered as cash for the purpose of the minimum cash balance requirement.

The North Carolina Turnpike Authority (NCTA)

NCTA is a public agency of the State of North Carolina located within NCDOT. NCTA's mission is to supplement the traditional non-toll transportation system serving the citizens of North Carolina by accelerating the delivery of roadway projects using alternative financing options and facilitating the development, delivery, and operation of an integrated system of toll roads. The Triangle Expressway, North Carolina's first modern toll facility is approximately 18.8 miles of new highway construction, extending the partially complete "Outer Loop" around the greater Raleigh area from I-40 in the north to the NC 55 Bypass in the south opening fully to traffic on January 2, 2013. The Monroe Expressway, the second all electronic toll facility in North Carolina, opened to traffic on November 27, 2018. The Monroe Expressway is approximately 19.8 miles of new highway construction that serves as a bypass to U.S. 74 from I-485 in eastern Mecklenburg County to U.S. 74 between the towns of Wingate and Marshville in Union County. Since the STI law passed in June 2013, the identification of potential Turnpike projects has fallen under the strategic project prioritization process. Funding for Turnpike projects may be derived from a combination of State transportation revenues, Federal aid dollars, and toll revenue bonds.

Total revenues for the Triangle Expressway were \$54.0 million and \$39.1 million for FY 2022 and FY 2021, respectively. FY 2022 total revenues increased by 38.3% year-over-year (YOY) when compared to FY 2021. Operating expenses for the Triangle Expressway totaled \$14.1 million and \$13.9 million for FY 2022 and FY 2021, respectively. FY 2022 operating expenses increased by 1.7% YOY from the previous year.

Total revenues for the Monroe Expressway were \$27.0 million and \$21.0 million for FY 2022 and FY 2021, respectively. FY 2022 total revenue increased by 29.0% YOY when compared to FY 2021. Operating Expenses for the Monroe Expressway totaled \$12.5 million and \$11.2 million for FY 2022 and FY 2021, respectively. FY 2022 operating expenses increased by 11.8% YOY from the previous year.

Subject: NBAMPO MTIP Public Comment

Hello,

Greenville and New Bern have always been the two leading cities in our part of Eastern North Carolina. Unfortunately, they are connected by a two-lane road that is very unsafe. Almost every time I travel on NC-43, I drive by a serious accident. My hope is that the NBAMPO will consider funding a four-lane road between the two great cities of the East. Not only will this make travel safer for the public, but it will also greatly improve the economic development of our areas. Thank you for your consideration!

Best Regards,

GARY CURRY
Chief Operating Officer

Mr. DeJesus,

I was given your contact info from NCDOT regarding a project to install sidewalks along Evans St. from Arlington Blvd. south to Red Banks Rd.

I'm the president of the Lakewood Pines Neighborhood Association (on Evans in the "no sidewalk" zone) and we've been requesting this work and been given the runaround for YEARS. It is such a dangerous and heavily travelled section of roadway for pedestrians and cyclists but the City just seems to turn a blind eye to the danger.

What can you tell me about the project?

Alise Rowan

RESOLUTION NO. 2023-09-GUAMPO
ADOPTING THE GREENVILLE URBAN AREA METROPOLITAN PLANNING
ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FOR FY 2024-2033

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee has found the Metropolitan Transportation Improvement Program to be in full compliance with title YI of the Civil Rights Act of J 964 and the Title VI Assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794; and

WHEREAS, the Transportation Advisory Committee has considered how the Metropolitan Transportation Improvement Program will affect the involvement of Disadvantaged Business Enterprises in the FHWA and the FTA funded projects (Sec. 105(f), Pub. L. 97-424, 96 Stat. 2100, 49 CFR part 23); and

WHEREAS, the Transportation Advisory Committee has considered how the Metropolitan Transportation Improvement Program will affect the elderly and disabled per the provision of the Americans With Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat. 327, as amended) and the U.S. DOT implementing regulations; and

WHEREAS, the Metropolitan Transportation Plan (MTP) has a planning horizon year of 2040, and meets all the requirements of an adequate MTP; and

WHEREAS, the Transportation Advisory Committee (TAC) has provided for a formal 30-day public comment period for the proposed Transportation Improvement Program; and

WHEREAS, the Transportation Advisory Committee has solicited public and private transportation provider comments; and

WHEREAS, the programs and projects included in the GUAMPO Transportation Improvement Program for FY2024-2033 are financially constrained in accordance with State and Federal law; and

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the FY 2024 - 2033 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

This 13th day of September 2023.

Secretary

P.J. Connelly, Chairperson
Transportation Advisory Committee
Greenville Urban Area MPO

Attachment 9c Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP)

Purpose: To amend the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program (MTIP) to modify existing projects.

Modifications

1. U-6240 – BUILD Grant Project
Rehabilitation and Realignment of SR1571 (West 5th St.) from Cadillac St. to Reade Cir. In Greenville.
 - Modify cost at the request of the City of Greenville. 'DP' funds represent federal BUILD Grant funds.
2. EB-6042 – BUILD Grant Project
Construct Multi-Use Path at various locations including along the Tar River, Moye Blvd., The Norfolk Southern Rail Corridor, and Town Creek in Greenville.
 - Modify cost at the request of the City of Greenville. 'DP' funds represent federal BUILD Grant funds.

Action Needed: Request the Joint Governing Committee approve the amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

P.J. Connelly, Chairperson
Transportation Advisory
Committee Greenville Urban
Area MPO

Secretary

Attachment 9d Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Prioritization 7.0 Project/Corridor List and Schedule

Purpose: To review and approve the Prioritization 7.0 Project/Corridor List.

Discussion: The North Carolina Department of transportation (NCDOT), Rural Planning Organizations (RPO) and Metropolitan Planning Organizations (MPO) undergo a process known as Prioritization every two (2) to three (3) years to evaluate and program and fund projects in the federally required State Transportation Improvement Program (STIP). Due to price increases on projects within the STIP, the previous cycle, P6.0 was halted in the summer 2021.

In the summer of 2023, the SPOT office released the available funding for the upcoming cycle. The slides attached below describe the funding availability, as well as provide information on how GUAMPO projects are scored and programmed. The STIP office has released available funding estimates for Prioritization 7.0 are:

Statewide: \$3.94B

Region B: \$34M

Division 2: \$-55M

For your reference: The last Prioritization Cycle P5 the Region B was \$256.3M, that's \$222.3M less and Division 2 was \$144.6M, that's \$199.6M less. So, there is not a lot of funding for this cycle. These numbers are a snapshot in time, and they are expected to change, as we get closer to the release date for the 2026-2035 STIP. Attached below are is the funding breakdown and projections for P7.0, detailing how much is available per region and division, as well as how each of the modes and projects get scored.

As a result of this information, The MPO has been working on various strategies in order to create projects that will be able to both low cost, as well as high scoring. Being that the submittal deadline for the projects approaching in the end of September, the MPO is asking the TCC and TAC approve the following project list.

For P7.0, the current cycle, the MPO received sixteen (16) project submission slots in each mode of transportation (highway, bike & ped, rail, public transportation, and aviation). Project submission totals are determined by the population and number of lane miles in the MPO. Attached below is GUAMPO's Prioritization 7.0 Project list of corridors that are being considered for spot projects. This draft was created by the staff for the review and approval of the Joint Governing Committee prior to submitting projects for scoring. As

such, the corridors that are up for approval may have projects that experience alterations and segmentations in order to achieve GUAMPO's goal of developing competitive projects that score well. The projects have been arranged by transportation mode. The chances of funding is an integral part of our analysis procedure when creating the list. As such, as the corridors are refined into a series of SPOT projects, further details will be provided to both the members, as well as the public, online for review.

Projects listed and subject to modifications, segmentation, and or removal. Projects not on the list are not considered for SPOT project submittal.

Action Needed: Request the Joint Governing Committee approve Greenville MPO's Prioritization 7.0 Project List.

Attached: *August 4th, 2023 P7.0 Funding Availability memo from NCDOT STIP Unit; P7.0 Funding Projections; Greenville MPO Prioritization 7.0 Project List; P7.0 Project Schedule*

Funding Category	10 year Budget Including Lookback Law minus DA Funding (starting budget)	Amount of STI Committed Projects	Remaining Available Budget for P7.0	Number of Uncommitted Projects	\$ Amount of Uncommitted Project costs within 2026-2035 window	Remaining Available Budget – Uncommitted Projects (Available for New Projs)*

Division 1	\$806M	\$763M	\$43M	1	\$2M	\$41M
Division 2	\$826M	\$881M	-\$55M	0	\$0	\$0
Division 3	\$714M	\$753M	-\$39M	2	\$34M	\$0
Division 4	\$682M	\$656M	\$26M	3	\$18M	\$8M
Division 5	\$518M	\$502M	\$16M	2	\$30M	\$0
Division 6	\$660M	\$461M	\$199M	5	\$183M	\$16M
Division 7	\$681M	\$434M	\$247M	26	\$171M	\$76M
Division 8	\$831M	\$757M	\$74M	6	\$44M	\$30M
Division 9	\$692M	\$587M	\$103M	1	\$88M	\$15M
Division 10	\$473M	\$502M	-\$29M	1	\$9M	\$0
Division 11	\$853M	\$956M	-\$103M	1	\$11M	\$0
Division 12	\$821M	\$705M	\$116M	2	\$39M	\$77M
Division 13	\$748M	\$643M	\$105M	4	\$60M	\$45M
Division 14	\$753M	\$555M	\$198M	6	\$80M	\$118M

*This assumes that all uncommitted projects (carryover projects) score high enough in P7.0 to be funded in the 2026-2035 STIP

Notes to keep in mind:

- This is a snapshot in time:
 - only accounts for estimates and bid awards at this time
 - we have to assume the same look back law as last cycle
- It can and will change by the time our STIP managers start programming the 2026-2035 STIP
- A variety of things affect these numbers:

- \$700M in increases (cost estimates, additional authorizations and bid award adjustments) in committed projects since we locked down the STIP in March ahead of the June adoption
- Some buckets had almost all their projects committed. This means less available funding for new projects.
- There's also cases where a project may be committed with ROW starting in that last year (2028) and CON starting around 2031. That means the next 2 years we pick up in the STIP, are heavy cash flow years (2034 and 2035)
- One last item to keep in mind, the funding availability shown is relative to 0% over programmed. We are allowed to go up to 10% over and we use that as necessary when programming. On average, the Division needs buckets were about 7% over programmed in this last STIP.

Joint Governing Committee

No Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: 5310 Operating Grant Letter of Support

Purpose: The Pitt County Council on Aging is applying for funding from the North Carolina Department of Transportation and the Enhanced Mobility of Seniors and Individuals with Disabilities Program through the 5310 Operating Grant for FY2023. A letter of support from the MPO is required for the grant application to move forward.

Discussion: The draft letter of support for the 5310 Operating Grant is attached for review and approval.

Action Needed: Request the Joint Governing Committee approve the Greenville Urban Area MPO's 5310 letter of support.

Attachments: *5310 Operating Grant Letter of Support*

September 13, 2023

Mr. Rich Zeck
Executive Director
Pitt County Council on Aging
4551 County Home Rd.
Greenville, NC 27858

Dear Mr. Zeck,

The Greenville Urban Area Metropolitan Planning Organization (GUAMPO) has received your request for a letter of support for funding from the North Carolina Department of Transportation and the Enhanced Mobility of Seniors and Individuals with Disabilities Program through the 5310 Capital -Purchase of Services funding process for FY2025. Staff has reviewed the request and support your application.

The Greenville Urban Area Metropolitan Planning Organization understands the need for transportation services for seniors and people with disabilities who are served by the Pitt County Council on Aging's services in Pitt County.

We look forward to seeing the impact of these transportation services on the lives of seniors and people with disabilities in the community.

Sincerely,

Mayor P.J. Connelly, Chairman
Transportation Advisory Committee
Greenville Urban Area MPO

Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Reconnecting Communities and Neighborhoods Letter of Support

Purpose: Submittal of a Letter of Support for the City of Greenville’s Reconnecting Communities and Neighborhoods Grant Application.

Discussion: The Reconnecting Communities and Neighborhoods (RCN) Grant is the combination of two federal grants, the Reconnecting Communities Program (RCP) and the Neighborhood Access and Equity (NAE) grant. RCN Program will be awarded on a competitive basis for projects that advance community-centered connection transportation projects, with a priority for projects that benefit disadvantaged communities, by improving access to daily needs such as jobs, education, health care, food, nature and recreation; fostering equitable development and restoration.

The Program aims to reconnect communities by retrofitting, removing, or mitigating burdening or dividing facilities within a community. This can include adding complete street facilities, increasing lighting for nighttime visibility, or increasing canopy coverage to name a few.

This RCN application is for additional funding to provide additional funding to match previous awards for the BUILD grant project and reduce the City’s local financial contribution.

Action Needed: Request the Joint Governing Committee approve the Letter of Support for the Reconnecting Communities and Neighborhoods Grant Application

September 13, 2023

Secretary Pete Buttigieg
U.S. Department of Transportation
Office of the Secretary
1200 New Jersey Avenue, SE
Washington, DC 20590

Dear Secretary Buttigieg,

The Greenville Urban Area Metropolitan Planning Organization (MPO) is pleased to write this letter to express strong support for the City of Greenville to receive funding under the FY2023 Reconnecting Communities and Neighborhoods Grant. The funds will aid to connect economically disadvantaged communities to key locations within the city, such as grocery stores, schools, and recreational facilities, in addition to connecting communities to one another to help foster a more connected and united urbanized area. It is the goal of the Greenville Urban Area to provide equitable access for all citizens within its boundary. Grants like the Reconnecting Communities and Neighborhoods Grant allows for the opportunity for the removal, retrofitting, and mitigation of dividing or burdening facilities to assist disadvantaged communities to obtain equitable access.

The MPO is committed to safety and equity as demonstrated in adopted plans such as the 2045 Metropolitan Transport Plan, and the Active Transport Plan. Some of the foundations of which include investments in safer, complete streets, upgrading the transit services, and providing greater access to job hubs from traditionally under-represented neighborhoods. As a regional effort led by the MPO, the project will lead with an equity focus to promote investment in underserved communities in the region.

The further development of western Greenville facilities under this grant will help advance the MPO's goals of providing underserved and underrepresented communities equity through multimodal transportation. By increasing access to the key facilities via multimodal means and expanded pedestrian facilities, citizens that may not have access to an automobile will have the ability to move around the city with no detriment to their health, safety, or financial situation. GUAMPO strongly supports Greenville's application to advance this project and respectfully request and appreciate your time in considering their application.

Sincerely,

Mayor P.J. Connelly, Chair
Transportation Advisory Committee
Greenville Urban Area MPO

Rail Corridors Eligible for Funding

Under the Strategic Transportation Investment Law in North Carolina

MPOs & RPOs Displayed

Eligibility

- CSX Owned and Operated - Eligible
- NS Owned and Operated - Eligible
- NCCR Owned, Class I Operated - Eligible
- Class I Owned, Short Line Operated - Eligible
- State Owned, or Short Line Owned and Operated - Not Eligible

Federal Corridor ID Program

Intercity Passenger Rail Planning & Development

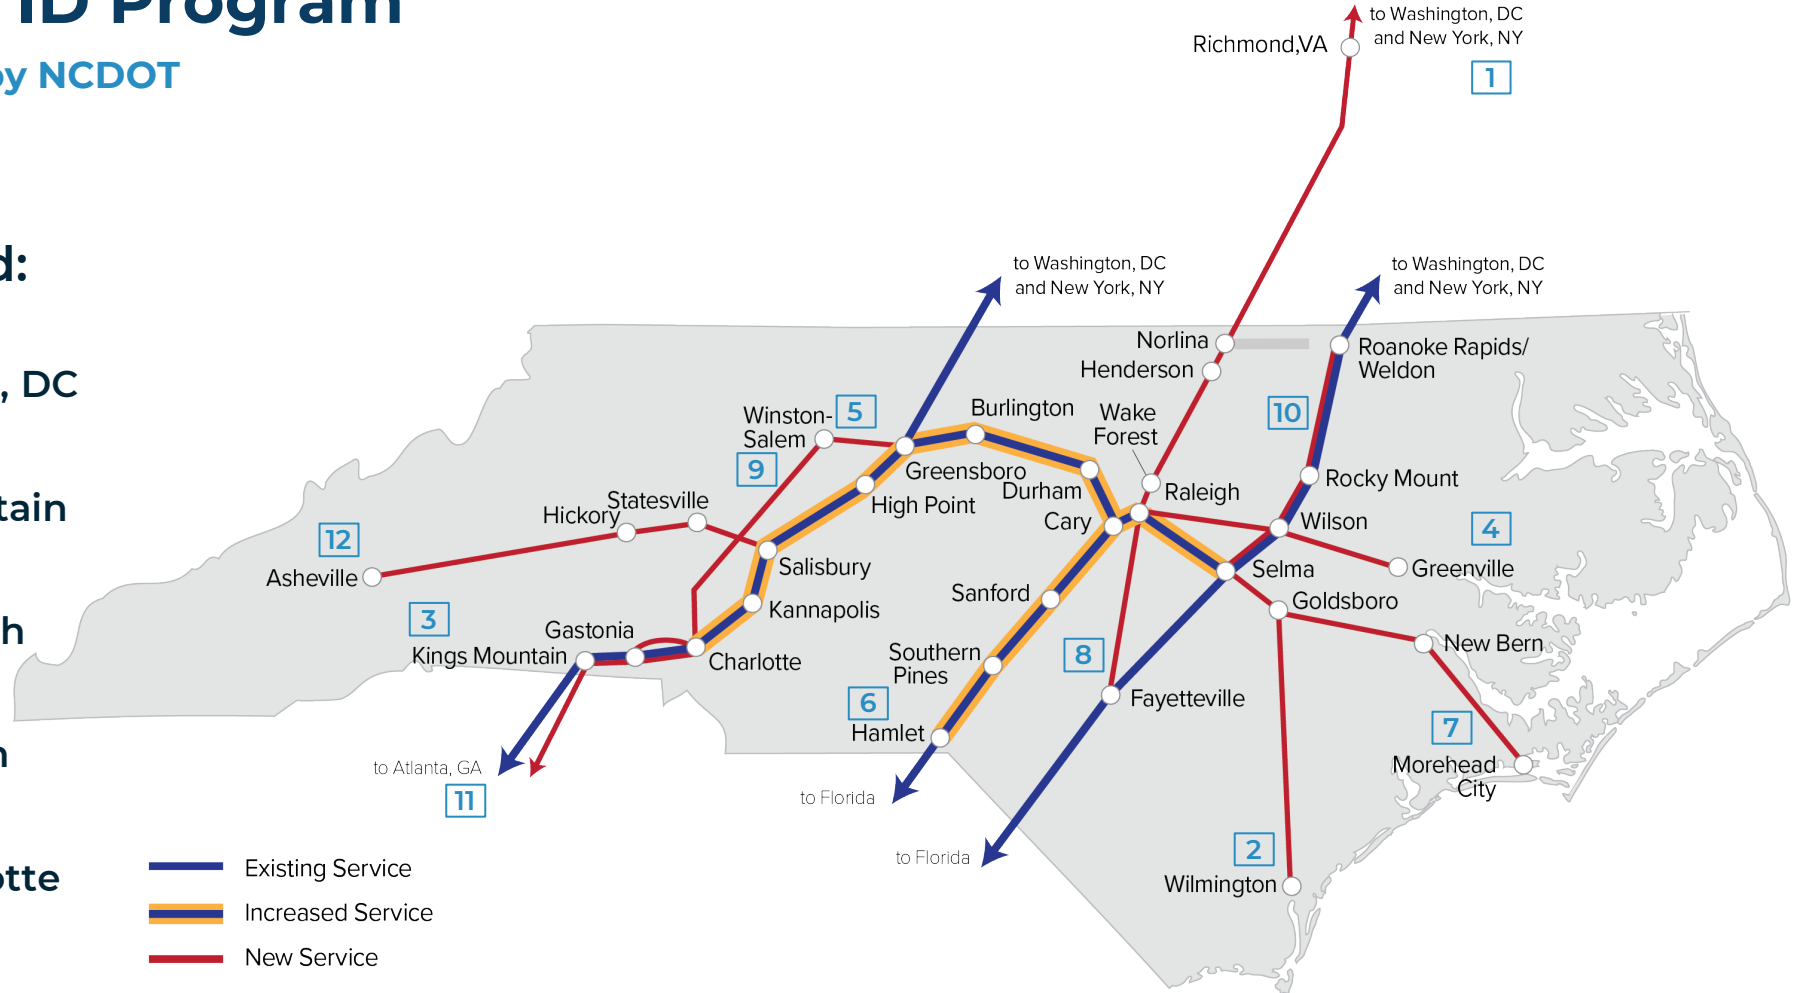

- NCDOT submitted 12 corridor applications in March 2023 to the Federal Railroad Administration (FRA) for the Corridor Identification and Development (CID) Program
- FRA expected to announce accepted corridors in **Fall 2023**
- CID Program will be opened annually for submitting corridors for acceptance into the FRA project pipeline
- If corridors are accepted into the CID Program, then Federal Funds awarded up to a max of:
 - \$500,000 to scope a service development plan for chosen corridors
 - 90% of project costs to develop a detailed service development plan including engagement with stakeholders such as railroads and NCDOT partners
 - 80% of project costs to prepare environmental documentation in accordance with the National Environmental Policy Act (NEPA)

Federal Corridor ID Program
