

Greenville Urban Area Metropolitan Planning Organization

Amended 2024-2033 Metropolitan Transportation Improvement Program

April, 2024

The NCDOT has demonstrated fiscal constraint on the 2024-2033 STIP adopted on 6/6/2023. The Greenville MPO TIP is a subset of the STIP and by extension therefore demonstrates fiscal constraint. The Greenville Urban Area MPO has established performance management targets for highway safety, infrastructure condition, congestion, system reliability, emissions, freight movement and transit. The Greenville Urban Area MPO anticipates meeting their identified targets with the mix of projects included in the FY 2024-2033 TIP.

NORTH CAROLINA 2024 – 2033
STATE TRANSPORTATION IMPROVEMENT PROGRAM

What is a State Transportation Improvement Program (STIP)?

The STIP is a multi-year capital improvement document which denotes the scheduling and funding of construction projects across the state over a minimum 4-year time period as required by Federal law. North Carolina's STIP covers a 10-year period, with the first five years (2024-2028 in this version) referred to as the delivery STIP and the latter five years (2029-2034 in this version) as the developmental STIP. Per 23 CFR 450.216 & 23 U.S. Code § 135 STIP's must also:

- Be submitted to Federal Highway Administration (FHWA) & Federal Transit Administration (FTA) for approval at least every 4 years
- Be fiscally constrained by year
- Include all capital and non-capital projects using Title 23 USC or Title 49 USC funds, other than certain safety, planning, and research funds
- Include metropolitan TIPs from Metropolitan Planning Organizations
- Provide public comment opportunity on STIP document
- And include the following information:
 - Project description and termini
 - Estimated total cost (NCDOT includes Utility, R/W, and Construction costs)
 - Federal funds to be obligated
 - Responsible agency (such as municipality)

North Carolina's STIP is typically updated every two years (but no later than every four years) and developed in concert with federal and state revenue forecasts, North Carolina Department of Transportation's (NCDOT's) Strategic Prioritization process, preconstruction, and project development timetables, and in adherence with federal and state laws. North Carolina state law requires Board of Transportation (BOT) action to approve the STIP.

This is the fourth STIP developed under the Strategic Transportation Investments (STI) law passed in June 2013. This landmark legislation elevates the use of transportation criteria and the input of local communities to determine project priorities and directs the use of dollars for transportation projects.

Maintenance and Capital Improvement Funding for North Carolina

NCDOT uses three major sources of funds for transportation improvements. Federal Funding and State Highway Trust Funds are used for capital improvements while the Highway Fund is used for maintenance activities. The chart below illustrates these funds and their sources.

* IJA's USDOT FHWA and FTA FFY 2022-23 Allocations

Performance Management Targets

NCDOT has established performance management targets for highway safety (established in the Strategic Highway Safety Plan (SHSP)), transit tier 2 providers that choose to participate in NCDOT's Group Transit Asset Management (TAM) Plan, and performance management targets for infrastructure condition, congestion, system reliability, emissions, and freight movement. The NCDOT anticipates meeting their identified targets with the State funded Highway Maintenance Improvement Program (HMIP) and the mix of projects included in the STIP aided by the Strategic Transportation Investments Prioritization and Programming process. The HMIP is a State funded program of projects that are programmed outside of the STIP. NCDOT collects data and other information at regular time intervals from the transit agencies relative to measure and assess progress toward meeting performance targets.

In North Carolina, pavement and bridge performance is primarily impacted through state funded programs that are managed outside the STIP. The Department's HMIP, identifies planned maintenance activities for a five-year time period, which include pavement, bridge and other general maintenance projects across our entire roadway network. The amount of funding provided through these state funded programs is roughly equivalent to the amount of state and federal funding programmed in the STIP over the same time period. In relation to NHS specific routes, the STIP does include some specific federal funding for interstate pavement and bridge maintenance through our own internal interstate maintenance program. Federal funding for bridges included in the STIP is applied primarily to non-NHS bridges. While the STIP can have an impact to the condition of our NHS pavements and bridges, specifically on the interstate system, the majority of the funding impacting the condition of our pavements and bridges is managed outside the STIP.

Public transit projects included in the STIP align with the transit safety planning and target setting process undertaken by the transit agencies and MPOs. While the North Carolina DOT aided with the development of a template for the initial Public Transportation Agency Safety Plans (PTASPs), each large urban transit provider is responsible for implementing its PTASP, which includes transit safety targets. Investments are made in alignment with PTASPs with the intent of keeping the state's public transit operations, vehicles, and facilities safe and meeting transit safety targets. State and federal funding sources that can be used by transit agencies for operations, vehicles, and facility improvements are outlined in the Public Transportation Project Funding section of the NCDOT 2024-2033 Current STIP. Individual transit agencies determine the use of these sources for capital and operating expenses based on their local needs.

How is the STIP organized?

The STIP contains funding information and schedules for transportation modes and programs including: Highways, Aviation, Bicycle and Pedestrian, Ferry, Public Transportation, Rail, Governor's Highway Safety and statewide related programs. The Appendix also contains a reference list of completions and deletions since the 2020-2029 STIP which was approved in 2019.

The transportation program in the STIP is organized in an Excel file that can be sorted and filtered as needed by the reader. The information included for each project includes details on the location of the project: County, NCDOT Highway Division, Route, Description, and Planning Organization. Projects also list the STI category they are funded from, i.e., by Statewide Mobility, Regional Impact, or Division Needs. The phases of projects (such as Right of Way (R), Utility relocation (U), and Construction (C) are listed by Fiscal Year along with their costs and anticipated funding sources. For those projects with their first phase of work beginning in the second half of the STIP (years 2029-2033), they are listed as "Funded for Preliminary Engineering Only." The Department will begin Preliminary Engineering activities (environmental documentation and design work) at the appropriate time, but the project will need to compete for funding in a future round of Prioritization and therefore the funding years for phases are unknown at this time. (See next section titled "Strategic Prioritization" for details on project prioritization.)

All projects require extensive planning, environmental impact and design studies. The location and exact type of improvements are subject to refinement and modification during the planning and design phases.

Strategic Prioritization

The Department manages a strategic project prioritization process known as Prioritization. Strategic prioritization uses transportation data, input of local government partners, and the public to generate scores and ultimately rankings of projects across the state. Multiple public input opportunities were provided during the spring and summer of 2020 regarding the submittal of new projects assisting each Metropolitan Planning Organization (MPO), Rural Planning Organization (RPO), and NCDOT's transportation Divisions.

The P6.0 process (the most recent generation of Prioritization) was organized similarly to previous prioritization cycles and resulted in each transportation mode using different quantitative criteria, measures, and weights to provide technical scores for projects as recommended by the Prioritization Workgroup and approved by the NC Board of Transportation. Also, per the intent of STI for transportation modes to compete for funding, a normalization process was recommended to create minimum percentages of funding for highway and non-highway projects in the combined Regional Impact and Division Needs categories. The minimum percentage for highways was 90% and minimum percentage for non-highways was 4%. These percentages guided the programming process, which ultimately yielded a 95% to 5% highway vs non-highway programmed amount in the combined Regional Impact and Division Needs categories.

P6.0 Highway Criteria & Weights:

Mobility Projects (Roadway Widening, Intersection/Interchange Improvements, Access Management):

Statewide Mobility		Regional Impact		Division Needs	
30%	Congestion	20%	Benefit-Cost	15%	Benefit-Cost
25%	Benefit-Cost	20%	Congestion	15%	Congestion
25%	Freight	10%	Accessibility/Connectivity	10%	Safety
10%	Economic Competitiveness	10%	Freight	5%	Accessibility/Connectivity
10%	Safety	10%	Safety	5%	Freight

Modernization Projects (Modernize Roadway, Upgrade Freeway to Interstate):

Statewide Mobility		Regional Impact		Division Needs	
25%	Freight	25%	Safety	20%	Safety
25%	Safety	10%	Freight	10%	Pavement Condition
20%	Paved Shoulder Width	10%	Lane Width	10%	Paved Shoulder Width
10%	Congestion	10%	Pavement Condition	5%	Freight
10%	Lane Width	10%	Paved Shoulder Width	5%	Lane Width
10%	Pavement Condition	5%	Congestion		

P6.0 Aviation Criteria & Weights

Statewide Mobility		Regional Impact		Division Needs	
40%	NCDOA Project Rating	30%	NCDOA Project Rating	25%	NCDOA Project Rating
30%	FAA ACIP Rating	15%	Benefit/Cost	10%	Benefit/Cost
20%	Benefit/Cost	15%	FAA ACIP Rating	10%	FAA ACIP Rating
10%	Constructability Index	10%	Constructability Index	5%	Constructability Index

P6.0 Bicycle/Pedestrian Criteria & Weights

Statewide Mobility		Regional Impact		Division Needs	
(not eligible)	(not eligible)	(not eligible)	(not eligible)	20%	Safety
				15%	Accessibility/Connectivity
				10%	Demand/Density
				5%	Cost Effectiveness

P6.0 Ferry Criteria & Weights

Statewide Mobility		Regional Impact		Division Needs	
(not eligible)	(not eligible)	(not eligible)	(not eligible)	20%	Capacity/Congestion
				15%	Asset Condition
				15%	Asset Efficiency
				10%	Accessibility/Connectivity
				10%	Benefits

P6.0 Public Transportation Criteria & Weights (Demand Response Projects)

Statewide Mobility		Regional Impact		Division Needs	
(not eligible)	(not eligible)	(not eligible)	(not eligible)	25%	Cost Effectiveness
				20%	Demand/Density
				15%	Efficiency
				10%	Impact

P6.0 Public Transportation Criteria & Weights (Facility Projects)

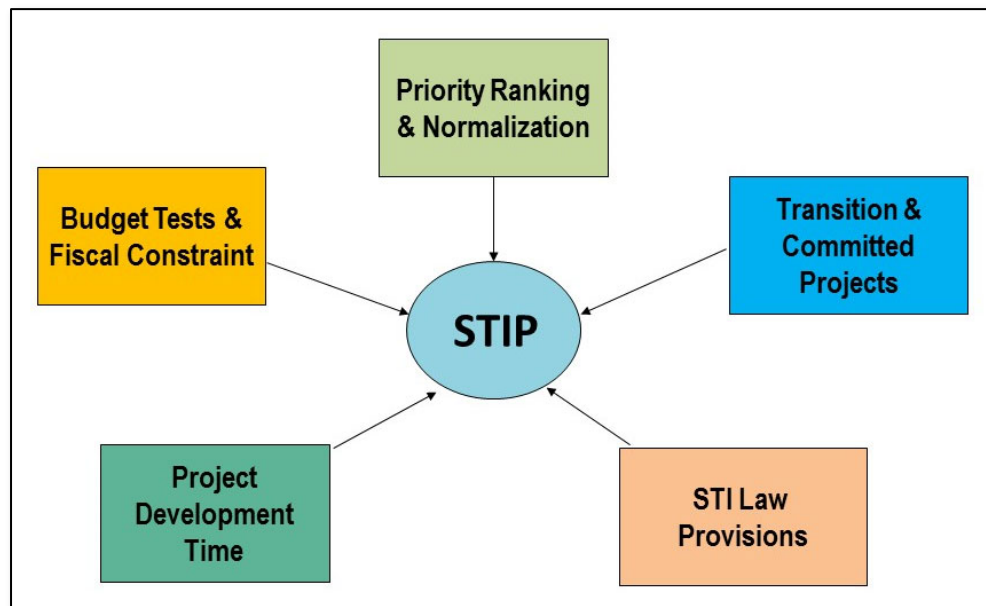

Statewide Mobility	Regional Impact	Division Needs	
(not eligible)	(not eligible)	15%	Cost Effectiveness
		15%	Impact
		10%	Demand/Density
		10%	Efficiency

P6.0 Rail Criteria & Weights

Statewide Mobility	Regional Impact	Division Needs			
35%	Benefit-Cost	25%	Benefit-Cost	15%	System Opportunities
30%	Safety	15%	Safety	10%	Benefit-Cost

10%	Capacity and Diversion	10%	Economic Competitiveness	10%	Safety
10%	Economic Competitiveness	10%	System Opportunities	5%	Economic Competitiveness

Due to rising costs for projects funded in the previously adopted 2020-2029 STIP, little to no funding was projected to be available for new projects in the 2024-2033 STIP timeframe. Therefore, on August 4, 2021, the Prioritization Workgroup recommended, and the N.C. Board of Transportation approved, the P6.0 prioritization cycle be halted. The decision was made to develop the 2024-2033 STIP using existing projects from the previously adopted 2020-2029 STIP. The conclusion of the P6.0 cycle was the release of the quantitative scores and the local input point procedure was halted. The P6.0 Workgroup was reconvened to finalize the methodology and procedures used for this one-time STIP development exception and the N.C. Board of Transportation approved the process. Projects with current construction schedules in the first three years (2024-2027), projects with right-of-way actively underway, and those with federal grants were programmed first; followed by a seniority approach of combined factors as oldest Prioritization cycle and highest scoring projects. There were no newly submitted projects from the P6.0 prioritization cycle included in the 2024-2033 STIP.

Figure A

However, it does not necessarily mean that projects will be scheduled in the STIP in the order of their score and rank. There are other considerations and factors in developing the actual program (Figure A). A major factor in deciding when the top scoring projects are funded is project delivery time. Projects need to fulfill a series of environmental and preliminary engineering requirements, right-of-way must be purchased, utility relocation (where applicable) must be addressed, and final plans must be developed for lettings. The time period to accomplish these activities can be lengthy. Construction funding cannot be allocated to projects before these preconstruction activities have taken place.

There were also STI law provisions (including a corridor cap and individual modal caps) which directed programming decisions and the entire program had to meet budget tests and fiscal constraint per state and federal requirements. STI law also included a provision to exempt from prioritization select projects (Transition Period Projects) scheduled to be obligated for construction prior to July 1, 2015. In addition, projects funded for right-of-way or construction in the first 6 years of the previous 2020-2029 STIP, were considered committed (now called “Scheduled for Delivery”) and were not evaluated in P6.0. However, the funding required for both the transition and committed projects was accounted for when budgeting for other projects.

Public Involvement – Draft STIP

After the release of the Draft STIP in August 2022, each of NCDOT’s 14 transportation divisions hosted a weeklong open house between September 1, 2022 and October 28, 2022. The purpose of these open houses was to inform citizens about projects in the Draft STIP and collect feedback. Additionally, multiple public input opportunities were available ahead of the development of the Draft STIP including the STI implementation process.

Each open house allowed participants to study maps of projects in the Draft STIP and review proposed project schedules and information with Department staff. Sessions were held in transit accessible locations and the Department provided auxiliary aids for participants under the Americans with Disabilities Act as well as special services for English limited participants. Consultation was conducted with stakeholder groups throughout North Carolina via emails and direct mailing to encourage participation via multiple feedback options. In addition, the department provided the ability for citizens to take an online survey as well as provide comments online, by phone or mail.

Transportation Conformity

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit in *South Coast Air Quality Mgmt. District v. EPA* (“South Coast II,” 882 F.3d 1138) held that transportation conformity determinations must be made in areas that were either nonattainment or maintenance for the 1997 ozone national ambient air quality standard (NAAQS) and attainment for the 2008 ozone NAAQS when the 1997 ozone NAAQS was revoked. These conformity determinations are required in these areas after February 16, 2019. The Research Triangle Region, the Rocky Mount Region were “maintenance” at the time of the 1997 ozone NAAQS revocation on April 6, 2015 and were also designated attainment for the 2008 ozone NAAQS on May 21, 2012. Therefore, the Research Triangle Region, the Metrolina Region, and the Rocky Mount Region will make their conformity determinations as per the 1997 ozone NAAQS on their MTPs and their 2024-2033 TIP. The Metrolina Region will also make their conformity determinations as per the 2008 ozone NAAQS on their MTPs and their 2024-2033 TIP.

Each MPO is required to develop a 20+ year Metropolitan Transportation Plan (MTP). In MPOs that are listed as either a non-attainment or maintenance air quality area, Transportation Conformity must be demonstrated on all plans, projects and TIPs. This ensures that transportation projects that receive federal funding conform to the intent of the air quality State Implementation Plan (SIP). Projects must be grouped by horizon year and the travel demand model must be run for each horizon year. From the travel demand model, speeds and Vehicle Miles Traveled (VMT) are obtained and used in the air quality model to calculate emissions that are compared to the budgets approved by the US Environmental Protection Agency (EPA). As long as the calculated emissions are less than the budget, the area can make a conformity finding. If the area cannot meet the budget, then the MPO’s project list does not meet the transportation conformity test and the area may be subject to lapse. A lapse can delay projects as federal actions cannot take place during a lapse and only exempt projects can move forward. A revised Transportation Conformity analysis can be triggered whenever a project is delayed or accelerated such that it crosses a horizon year. Whenever an MPO develops a new MTP, a new conformity analysis must be performed. When a new TIP comes out, the new TIP must be checked to make sure it is consistent with the MTP. If there is any inconsistency between the TIP and the MTP (conformity finding) then FHWA cannot take any federal action including approval of the TIP until this inconsistency is resolved.

On February 16, 2018, the United States Court of Appeals for the District of Columbia Circuit in the *South Coast Air Quality Mgmt. District v. EPA* case (“South Coast II,” 882 F.3d 1138) held that transportation conformity determinations must still be made in areas that were either nonattainment or maintenance for the 1997 ozone national ambient air quality standard (NAAQS) and attainment for the 2008 ozone NAAQS when the 1997 ozone NAAQS was revoked. However, these conformity determinations may be made without the requirement of a Regional Emissions Analysis (REA) and comparison to the emission budgets approved by the US EPA. Consistency between the TIP and MTP must still be ensured.

North Carolina 2008 Ozone Maintenance Area Requiring a REA

Public Transportation Project Funding

The projects listed in the STIP are funded from various Federal Transit Administration (FTA), Federal Highway Administration (FHWA) and North Carolina State Funds, many requiring a state and/or local funding match. Annually, the NCDOT Integrated Mobility Division (IMD) provides state funds to assist in meeting these match requirements. The amount available for state match is limited to the amount appropriated by the General Assembly.

FTA program funding apportionment amounts are published annually in the Federal Register and posted to the FTA website. NCDOT uses these apportionments to allocate funding to qualifying sub-recipients. Most FTA funding apportioned to urbanized areas with a population of 200,000 or greater is managed directly by the MPO or transit agency. The MPO develops projects that appear in the STIP, using, in part, funds received directly from FTA. NCDOT IMD allocates federal funds to small urban areas less than 200,000 population and rural, non-urbanized areas of the state. MPOs and NCDOT IMD develop projects and programs that appear in the STIP using appropriated and apportioned federal and state funding amounts, including unobligated prior year funding. Amendments or modifications are made to the STIP for transit projects when the funding amount changes from the amount contained in the approved STIP.

The following Federally funded programs appear in the STIP:

A. Metropolitan Planning and Statewide Planning Program (Section 5303 / 5304)

Provides funding and procedural requirements for multimodal transportation planning in metropolitan areas and states that are cooperative, continuous and comprehensive, resulting in long-range plans and short-range programs that reflect transportation investment priorities. These planning programs are jointly administered by FTA and the FHWA, which provides additional funding to MPOs.

IMD Goals:

- 5303 – Create a fair and equitable distribution of planning funds to urbanized areas (UZAs) and foster transit planning on a regional and inter-regional scale.
- 5304 – Provide for statewide planning and technical studies.

B. Urban Area Formula Program (Section 5307)

Makes Federal resources available to qualifying areas for transit capital, operating assistance, and transportation planning in MPOs and urbanized areas with a population of 50,000 or more as designated by the U.S. Department of Commerce, Bureau of the Census.

IMD Goals:

- 5307 Governor's Apportionment (GA) – Work with small, urbanized areas to offer technical assistance, as needed. Section 5307 grants are managed by the FTA direct recipient in these small, urbanized areas.
- 5307 Large Urbanized Areas – Work with large urbanized areas for technical assistance, as needed.

C. Enhanced Mobility of Seniors and Individuals with Disabilities Program (Section 5310)

Improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options. This program supports transportation services planned, designed, and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas – large urbanized (over 200,000 population), small urbanized (50,000-200,000 population), and rural (under 50,000 population). Eligible projects include both traditional capital investment and nontraditional operational assistance investment beyond the Americans with Disabilities Act (ADA) complementary paratransit services.

IMD Goal:

- Support transportation of seniors and persons with disabilities in small, urbanized areas (50,000-200,000 population) and rural North Carolina (less than 50,000 population).

D. Rural Formula Grant Program (Section 5311)

Provides capital, planning, and operating assistance to states to support public transportation in rural areas with populations of less than 50,000, where many residents often rely on public transit to reach their destinations. The program also provides funding for state and national training and technical assistance through the Rural Transportation Assistance Program (RTAP), Intercity Bus (5311(f)) and Appalachian Development Transportation Assistance Program. North Carolina is one of 13 states receiving the Appalachian Development grants in the following 29 counties: Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Davie, Forsyth, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Stokes, Surry, Swain, Transylvania, Watauga, Wilkes, Yadkin, and Yancey.

IMD Goals:

- Support general public transportation in rural North Carolina (less than 50,000 population) and provide a coordinated transportation network.
- Enhance access in rural areas to health care, shopping, education, employment, public services and recreation.
- Encourage the most efficient use of transportation funds to provide passenger trips in rural areas through coordination of programs and services.

E. Bus and Bus Facilities Program (Section 5339)

Provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

IMD Goal:

- Support the small urban and statewide funding program to provide capital funds to replace, rehabilitate and purchase buses and related equipment and construct bus-related facilities.

F. Public Transportation Safety Program – State Safety Oversight (Section 5329)

Provides funds for program operational and administrative expenses, including employee training activities. This funding is provided to North Carolina to support the rail fixed guideway public transportation systems in the City of Charlotte. This funding is administered by the NCDOT Rail Division.

IMD Goal:

- Provide any needed technical assistance and support to the NCDOT Rail Division as it administers these funds.

G. State of Good Repair (Section 5337)

Provides capital funds for maintenance, replacement and rehabilitation projects of high-intensity fixed guideway and bus systems to help transit agencies maintain assets in a state of good repair. Additionally, State of Good Repair grants are eligible for developing and implementing Transit Asset Management Plans. This funding is apportioned directly to the systems in the State with fixed guideway systems. This FTA funding is not administered by IMD.

H. Capital Investment Grant (CIG) Program (Section 5309)

The FTA discretionary grant program funds transit capital investments, including heavy rail, commuter rail, light rail, streetcar and bus rapid transit. Federal transit law requires transit agencies seeking CIG funding to complete a series of steps over several years. For New Starts and Core Capacity projects, the law requires completion of two phases in advance of receipt of a construction grant agreement – Project Development and Engineering. For Small Starts projects, the law requires completion of one phase in advance of receipt of a construction grant agreement – Project Development. This FTA funding is not administered by IMD.

Project Descriptions

EPA's Transportation Conformity Regulation states "The degree of specificity required in the transportation plan and the specific travel network assumed for air quality modeling do not preclude the consideration of alternatives in the NEPA process of other project development studies." In an effort to not unduly influence the outcome of NEPA studies the STIP has used fairly generic descriptions of proposed work although the cost estimates were derived from specific future cross sections. In future documents, more specific descriptions will be used as the NEPA process determines a preferred alternative. So, while the out years 6 through 10 may use a description like "widen to multi-lanes" as the NEPA process defines a recommended cross section this may become "widen to 4 lane median-divided cross section" as the project comes closer to having right of way and construction actually funded.

PROGRAM BUDGETS

Transportation Revenue Forecast

State Budget

State transportation revenues are derived from four sources: user fees in the form of Motor Fuel Tax (MFT), driver and vehicles fees collected by the NC Division of Motor Vehicles (DMV Fees), a Highway Use Tax (HUT) on vehicle title transfers, and a portion of the state sales tax proceeds. Federal transportation revenues are derived from a federal MFT tax, commercial vehicle fees, and transfers from the U.S. General Fund. North Carolina's total transportation funding consists of roughly 75 percent state revenues and 25 percent federal revenues.

State revenue projections are developed using a consensus forecast process by the Office of State Budget and Management (OSBM), Legislative Fiscal Research Division, and NCDOT. Budget estimates developed for the Governor's biennial budget serve as a base from which NCDOT and OSBM staff develop the forecast for the remaining years. The OSBM and NCDOT forecasts are produced using numerous data sources, but largely rely on economic data and research produced by S&P Global, a private financial forecasting company and in-house consumption forecasting models, and internal historical data. Motor fuel tax revenues are forecast using crude oil prices, and estimates for consumption, fuel efficiency, and miles travelled. Highway Use Tax (HUT) revenue forecasts are based on historical data and predicted values for new and used vehicle transactions and vehicle price. Sales tax revenue forecasts rely on economic measures, such as gross national product (GNP), personal income, and the consumer price index (CPI). DMV fee revenue forecasts are based on historical transactional information, such as vehicle registration and licensed driver data, and OSBM population projections. DMV title fee estimates are obtained using licensed driver and vehicle registration data. The number of vehicle transactions, vehicle price, motor fuel consumption, the purchase of goods and services, and sales tax revenues correlate strongly with economic conditions. Generally, DMV fees correlate with projected changes in population. Title fees closely correlate to forecasted changes in vehicle sales.

The motor fuel tax rate is adjusted annually based on a variable rate formula that measures changes in population and the Consumer Price Index for Energy (CPI-E). Effective January 1, 2023, the motor fuel tax rate is 40.5 cents per gallon. DMV fees are adjusted every four years based on changes in the CPI. HUT and sales tax rate changes are made by acts of the North Carolina General Assembly.

Federal Budget

After a one-year extension of the Fixing America's Surface Transportation Act, or "FAST Act", President Biden signed into law the five-year \$1.2 trillion Infrastructure Investment and Jobs Act (IIJA) on November 15, 2021. The IIJA largely maintains current program structures and funding shares between highways and transit, but it includes significant expansions in funding, new discretionary and competitive grant programs, and two new formula programs. The law emphasizes the goals of creating a resilient, efficient, safe, and connected transportation system. The formula programs are:

- National Highway Performance Program (NHPP)
- Surface Transportation Block Grant Program (STBG)
- Congestion Mitigation and Air Quality Improvement Program (CMAQ)
- Highway Safety Improvement Program (HSIP)
- Railway-Highway Crossings (subset of the HSIP)
- Metropolitan Planning
- Construction of Ferry Boats and Ferry Terminal Facilities
- Transportation Alternatives (TA)
- National Highway Freight Program
- Carbon Reduction Program
- PROTECT Program
- Bridge Program
- National Electric Vehicle Formula Program

Federal transportation funding is distributed by USDOT based on Congressional multi-year reauthorization bills and annual appropriation acts. The federal MFT rate, set by Congress in 1993, is 18.4 cents per gallon for gasoline and 24.4 cents per gallon for diesel fuel. Unlikely prior multi-year reauthorization bills, the IIJA legislation was approved by Congress using record General Fund transfers and advanced appropriations which have been assumed to be partially continue past the expiration of IIJA in federal FY 2026.

Federal Aid Program

The Federal Aid Program consists of many funding categories. Funding in most of these individual categories is subject to overall federal budget constraints and Federal Obligation Limitation. The obligation limitation effectively limits the amount of federal funds that can be utilized in any one year.

North Carolina’s availability of federal funds for the STIP is expected to be about \$1,497 million in FY 2024 and \$1,522 in FY 2025.

Virtually all federal-aid projects require a local or state fund contribution. Most highway and transit programs require a 20% local or state share. The amount of matching funds needed for the Federal Aid Program is expected to be approximately \$359 million in FY 2024 and \$365 million in FY 2025, most of which will be funded by the State Highway Trust Fund.

During the balancing of the State Transportation Improvement Program (STIP), the program is fiscally constrained to the amount of funds projected to be available each year to prevent the Department from over committing future revenues. NCDOT extensively uses “Advance Construction” (AC), which allows states to begin a project even in the absence of sufficient federal-aid obligation authority to cover the federal share of project costs. It is codified in Title 23, Section 115. Advance Construction eliminates the need to set aside full obligational authority before starting projects. As a result, a state can undertake a greater number of concurrent projects than would otherwise be possible. In addition, Advance Construction helps facilitate construction of large projects, while maintaining obligational authority for smaller ones.

Prior to authorizing a project (or phase of a project), a federal agency is typically required to obligate the total amount of funds needed to complete the project (or phase). So, if NCDOT plans to construct a project estimated to cost \$40 million without using Advance Construction, Federal Highway Administration (FHWA) would need to obligate their full share, typically 80 percent, or \$32 million; even though some of those funds will not be needed for several years.

Advance Construction allows FHWA to authorize the project without obligating the funds needed to complete the project. Under an Advance Construction authorization, FHWA does not commit the federal government to funding the project but makes the project eligible for reimbursement at a later date as federal funds become available.

As an Advance Construction project progresses, NCDOT will obligate federal funding and bill FHWA for expenditures that have occurred (typically at 80 percent). For instance, if after a year of construction, the \$40 million construction project described above has \$10 million of expenditures and federal funds are available, NCDOT may obligate \$8 million of federal funds and send FHWA a bill for \$8 million.

In March 2021, NCDOT developed a policy to govern the use of Advance Construction. This policy requires a yearly analysis of the Advance Construction program to ensure that the use of Advance Construction is within prescribed limits. The results of this analysis are posted on the Department’s website and reported to the Board of Transportation.

When analyzing Advance Construction usage at NCDOT, a distinction is made between Advance Construction used for Grant Anticipation Revenue Vehicles (GARVEE) bonded projects and non-GARVEE traditional Advance Construction projects. GARVEE is a type of bond or similar financing method used by a state to finance transportation projects and is a specific type of Advance Construction. Outstanding GARVEE debt is considered in the yearly Advance Construction analysis by reserving the funds that are needed to make the bond payments. However, GARVEE AC balances should be viewed differently since they are long-term well-defined commitments. The North Carolina General Assembly has imposed restrictions on the use of GARVEE to ensure that the Department’s use of this funding technique remains within reasonable levels. Prior to the issuance of GARVEE bonds, the limits imposed by the General Assembly are checked to ensure that the Department will remain in compliance. State law constrains the total amount of GARVEE debt such that the total GARVEE outstanding principal amount cannot exceed the previous year’s total federal budget authorization, or the debt service cannot exceed 20 percent of anticipated annual future federal revenues.

Since non-GARVEE Advance Construction is more fluid, a yearly analysis is required by the Department’s Advance Construction policy. The Advance Construction levels for non-GARVEE projects are subject to the following two limits:

- Amount of unreimbursed state funds expended (by funding source) should not exceed 1 year of federal apportionments.
- AC balance (by funding source) should not exceed 4 years of anticipated federal apportionments.

The table on the following page provides the projected non-GARVEE balances for FY 2024 through FY 2027 in the two largest categories, National Highway Performance Program (NHPP) and Surface Transportation Block Grant Program (STBG) as well as our Highway Safety Improvement Program (HSIP).

	National Highway Performance Program				Surface Transportation Block Grant				Highway Safety Improvement Program			
	2024	2025	2026	2027	2024	2025	2026	2027	2024	2025	2026	2027

NOTE: Dollars in thousands and exclude GARVEE.

GARVEE Bonds

In 2005, House Bill 254 authorized NCDOT to issue Grant Anticipation Revenue Vehicles (GARVEE bonds) to finance federal aid highway projects. All funds derived from GARVEE bonds are backed by the receipt of future federal funds and no state funds may be committed to the debt service. Below is a summary of the GARVEE bond issuances and debt service requirements.

GARVEE Bond Program (\$ in Millions)

State Fiscal Year	Proceeds Including Premium	Debt Service

BUILD NC Bonds

In 2018, Senate Bill 758 authorized NCDOT to issue Build NC bonds to finance highway projects at the regional impact and divisional need project categories. Subject to appropriation by the General Assembly, funds from the Highway Trust Fund shall be the source for repayment of debt service. Below is a summary of Build NC bond debt service requirements.

BUILD NC Bond Program (\$ in Millions)

State Highway Trust Fund

Revenues for the Trust Fund are generated from state motor fuels tax, the highway use tax (transfer of motor vehicle titles), DMV titles and other fees, sales tax transfer from the general fund and interest income (as shown in the graphic on page T-2). \$49 million of Trust Fund revenues are transferred each year to the NCTA for project funding, as well as \$45 million to the State Ports.

The STIP budget is based on a consensus forecast by the OSBM, Legislative Fiscal Research Division, and NCDOT. These estimates were used to develop the draft program and are the basis for air quality and fiscal constraint tests. The Trust Fund revenues are projected to be about \$2.2 billion for FY 2024 and \$26.3 billion during the 10-year period. Of this \$26.3 billion in revenue, \$490 million goes to NCTA, \$611.6 million is used for program administration, \$4 million is transferred to the Highway Fund for Visitor Centers and \$450 million is transferred to State Ports. The remaining \$24.8 billion is available for STIP purposes. After preliminary engineering, the state match for federal planning (SPR) funds, inflation, and bonus allocation, \$19.4 billion is available for programming.

Anticipated Inflation Impact

Inflation is not explicitly factored into the above revenue estimates. However, before programming projects in the STIP, available funds were reduced to account for future inflation. NCDOT uses a 3% per year inflation factor. The 3% was compounded annually for the first five years, then held constant for the last five years. In the first year (2024), ½ of the inflation rate was used (1.5%) to ramp up to the 3% in year 2 (2025). This allows project costs used in the Program to be shown in current (2024) dollars.

State Highway Fund

Revenues for the Highway Fund are generated from the state motor fuels tax and DMV fees. The Highway Fund primarily supports projects that maintain the state's existing transportation system. This includes general maintenance, roadside environmental activities, resurfacing highways, replacing bridges, paving unpaved secondary roads, and state aid to municipalities. Funds are distributed across North Carolina based on need.

Cash Model and Fiscal Constraint of the STIP

In a traditionally financed federal-aid highway project, the FHWA approves the project and obligates (promises to pay) federal funds (typically 80 percent of eligible costs) at the start of a contract. The Department then begins construction, pays construction costs with state funds, and submits weekly federal reimbursement requests to FHWA. However, at its discretion, NCDOT may also use a funding technique called Advance Construction. In Advance Construction, the FHWA only approves a project as being eligible for federal funding and does not obligate (promise to pay) federal funds at the start of a project. The Department then begins construction, pays construction costs with state funds, submits a request to obligate an amount of federal funds necessary for reimbursement of a percentage of eligible costs (typically 80 percent), and submits a request for reimbursement to FHWA.

NCDOT heavily utilizes Advance Construction because it allows the Department to accelerate projects by undertaking a greater number of concurrent federal-aid projects than would otherwise be possible. However, when Advance Construction is utilized, care must be taken to ensure that adequate funds will be available to implement the schedule of projects included in the STIP. NCDOT relies on its cash model to insure fiscal constraint of both the STIP and its entire operation. The Department uses a cash model to manage its operation on a cash-flow basis using statistical models that were developed specifically to support NCDOT programs. The models are used to forecast future cash demands and financial capacity.

North Carolina's General Assembly in §143C:6-11 dictates that the Department's cash target to be between 15% and 20% of the total appropriations from the Highway Fund and Highway Trust Fund for the current fiscal year. Any federal funds on hand shall not be considered as cash for this purpose. The target shall include an amount necessary to make all municipal-aid funding requirements. Also, NCGS §143C:6-11 requires the minimum cash balance from the Highway Fund and Highway Trust Fund to be at least 7.5% of the total appropriations for the current fiscal year. If this minimum is not maintained, no further transportation project contract commitments may be entered into until the cash balance has been regained. The Department may modify or supplement transportation contract commitments for existing transportation projects that (i) results in a savings from the total estimated project cost of the existing commitment, based on cost-savings analysis, or (ii) relate to the needs of an existing transportation project to continue. Any federal funds on hand shall not be considered as cash for the purpose of the minimum cash balance requirement.

The North Carolina Turnpike Authority (NCTA)

NCTA is a public agency of the State of North Carolina located within NCDOT. NCTA's mission is to supplement the traditional non-toll transportation system serving the citizens of North Carolina by accelerating the delivery of roadway projects using alternative financing options and facilitating the development, delivery, and operation of an integrated system of toll roads. The Triangle Expressway, North Carolina's first modern toll facility is approximately 18.8 miles of new highway construction, extending the partially complete "Outer Loop" around the greater Raleigh area from I-40 in the north to the NC 55 Bypass in the south opening fully to traffic on January 2, 2013. The Monroe Expressway, the second all electronic toll facility in North Carolina, opened to traffic on November 27, 2018. The Monroe Expressway is approximately 19.8 miles of new highway construction that serves as a bypass to U.S. 74 from I-485 in eastern Mecklenburg County to U.S. 74 between the towns of Wingate and Marshville in Union County. Since the STI law passed in June 2013, the identification of potential Turnpike projects has fallen under the strategic project prioritization process. Funding for Turnpike projects may be derived from a combination of State transportation revenues, Federal aid dollars, and toll revenue bonds.

Total revenues for the Triangle Expressway were \$54.0 million and \$39.1 million for FY 2022 and FY 2021, respectively. FY 2022 total revenues increased by 38.3% year-over-year (YOY) when compared to FY 2021. Operating expenses for the Triangle Expressway totaled \$14.1 million and \$13.9 million for FY 2022 and FY 2021, respectively. FY 2022 operating expenses increased by 1.7% YOY from the previous year.

Total revenues for the Monroe Expressway were \$27.0 million and \$21.0 million for FY 2022 and FY 2021, respectively. FY 2022 total revenue increased by 29.0% YOY when compared to FY 2021. Operating Expenses for the Monroe Expressway totaled \$12.5 million and \$11.2 million for FY 2022 and FY 2021, respectively. FY 2022 operating expenses increased by 11.8% YOY from the previous year.

To: Deanna Trebil <trebil.deanna@newbernnc.gov>
Cc: Felicia McRee <McReeF@newbernnc.gov>
Subject: NBAMPO MTIP Public Comment

Hello,

Greenville and New Bern have always been the two leading cities in our part of Eastern North Carolina. Unfortunately, they are connected by a two-lane road that is very unsafe. Almost every time I travel on NC-43, I drive by a serious accident. My hope is that the NBAMPO will consider funding a four-lane road between the two great cities of the East. Not only will this make travel safer for the public, but it will also greatly improve the economic development of our areas. Thank you for your consideration!

Best Regards,

GARY CURRY
Chief Operating Officer

Subject: [External] Directed to you from NCDOT

Mr. DeJesus,

I was given your contact info from NCDOT regarding a project to install sidewalks along Evans St. from Arlington Blvd. south to Red Banks Rd.

I'm the president of the Lakewood Pines Neighborhood Association (on Evans in the "no sidewalk" zone) and we've been requesting this work and been given the runaround for YEARS. It is such a dangerous and heavily travelled section of roadway for pedestrians and cyclists but the City just seems to turn a blind eye to the danger.

What can you tell me about the project?

Alise Rowan

**RESOLUTION NO. 2023-09-GUAMPO
ADOPTING THE GREENVILLE URBAN AREA METROPOLITAN PLANNING
ORGANIZATION TRANSPORTATION IMPROVEMENT PROGRAM FOR FY 2024-2033**

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee has found the Metropolitan Transportation Improvement Program to be in full compliance with title YI of the Civil Rights Act of J 964 and the Title VI Assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794; and

WHEREAS, the Transportation Advisory Committee has considered how the Metropolitan Transportation Improvement Program will affect the involvement of Disadvantaged Business Enterprises in the FHWA and the FTA funded projects (Sec. 105(f), Pub. L. 97-424, 96 Stat. 2100, 49 CFR part 23); and

WHEREAS, the Transportation Advisory Committee has considered how the Metropolitan Transportation Improvement Program will affect the elderly and disabled per the provision of the Americans With Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat. 327, as amended) and the U.S. DOT implementing regulations; and

WHEREAS, the Metropolitan Transportation Plan (MTP) has a planning horizon year of 2040, and meets all the requirements of an adequate MTP; and

WHEREAS, the Transportation Advisory Committee (TAC) has provided for a formal 30-day public comment period for the proposed Transportation Improvement Program; and

WHEREAS, the Transportation Advisory Committee has solicited public and private transportation provider comments; and

WHEREAS, the programs and projects included in the GUAMPO Transportation Improvement Program for FY2024-2033 are financially constrained in accordance with State and Federal law; and

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the FY 2024 - 2033 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

This 13th day of September 2023.

Appendix B: Amendments

The Following are amendments made to the 2024-2033 MTIP

Attachment 9c Joint Governing Committee

Action Required

September 13, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP)

Purpose: To amend the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program (MTIP) to modify existing projects.

Modifications

1. U-6240 – BUILD Grant Project
Rehabilitation and Realignment of SR1571 (West 5th St.) from Cadillac St. to Reade Cir. In Greenville.
 - Modify cost at the request of the City of Greenville. 'DP' funds represent federal BUILD Grant funds.
2. EB-6042 – BUILD Grant Project
Construct Multi-Use Path at various locations including along the Tar River, Moyer Blvd., The Norfolk Southern Rail Corridor, and Town Creek in Greenville.
 - Modify cost at the request of the City of Greenville. 'DP' funds represent federal BUILD Grant funds.

Action Needed: Request the Joint Governing Committee approve the amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

Attachments: *MTIP amendment reference pages; Greenville Urban Area Resolution 2023-10-GUAMPO;*

**RESOLUTION NO. 2023-10-GUAMPO
REQUESTING THE AMENDMENT OF THE STATEWIDE TRANSPORTATION
IMPROVEMENT PROGRAM FOR FY 2024-2033**

WHEREAS, the Transportation Advisory Committee for the Greenville Urban area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has reviewed the current FY 2024-2033 Statewide Transportation Improvement Program and found the need to request an amendment;

WHEREAS, the following amendment to the FY 2024-2033 Metropolitan Transportation Improvement Program has been approved;

(see Exhibit attached hereto)

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the amendments of the FY 2024 - 2033 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

Today, September 13, 2023,

Attachment 9a Joint Governing Committee

Action Required

November 29, 2023

TO: Joint Governing Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP)

Purpose: To amend the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program (MTIP) to add new projects and modify existing projects.

Discussion: There are a total of 34 amendments to the MTIP, with 18 Additions and 16 Modifications.

Within this MTIP amendment, there are 14 highway safety projects added, which deal with various statewide aspects of roadway safety. The projects address vulnerable roadway users, roadway signal retiming and operations, highway system data collection, among other things. 2 of these highway safety projects are local projects which were added through a modification by the Highway Safety Division. Additionally, there were projects added that deal with the management of various environmental aspects and infrastructural (bridge) projects on a statewide level.

There were some modifications made to STI funded projects. While some of these projects were modified to reflect cost increases, there were modifications made which delayed the construction of some projects. There also some changes of funding sources from state to federal funding.

The MTIP amendments break down as follows:

Administrative Additions

Highway Safety

1. HS-2015DIV – Statewide Division Project: Various, Vulnerable Road User Pedestrian /Bicycle Improvement Program Excluding Grand Strand MPO.
 - Add Project at the request of the Transportation Mobility and Safety Division. Construction scheduled in FY2024
2. HS-2015REG – Statewide Regional Project: Various, Vulnerable Road User Pedestrian /Bicycle Improvement Program Excluding Grand Strand MPO.
 - Add Project at the request of the Transportation Mobility and Safety Division. Construction scheduled in FY2024
3. HS-2015SW – Statewide Project: Various, Vulnerable Road User Pedestrian /Bicycle

Improvement Program Excluding Grand Strand MPO. Construction

- Add Project at the request of the Transportation Mobility and Safety Division.
4. HS-2420DIV – Statewide Division Project: Various, Signal Retiming and Signal Operations Software to Improve Safety. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 5. HS-2420REG – Statewide Regional Project: Various Signal Retiming and Signal Operations Software to Improve Safety. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 6. HS-2420SW – Statewide Project: Various Signal Retiming and Signal Operations Software to Improve Safety. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 7. HS-2421DIV – Statewide Division Project: Various Safety Management Program, Project Identification, Analysis and Preliminary Engineering. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 8. HS-2421REG – Statewide Regional Project: Various Safety Management Program, Project Identification, Analysis and Preliminary Engineering. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 9. HS-2421SW – Statewide Project: Various Safety Management Program, Project Identification, Analysis and Preliminary Engineering. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 10. HS-2422DIV – Statewide Division Project: Various Highway System Data Collection. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 11. HS-2422REG – Statewide Regional Project: Various Highway System Data Collection. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.
 12. HS-2422SW – Statewide Project: Various Highway System Data Collection. Engineering scheduled FY2024
 - Add Project at the request of the Transportation Mobility and Safety Division.

School Traffic Analysis

13. SM-6215DIV – Statewide Division Project: Various School Traffic Analysis for New, Relocated and Expanding Schools. Engineering scheduled FY2024

- Add Project at the request of the Transportation Mobility and Safety Division
14. SM-6215REG – Statewide Regional Project: Various School Traffic Analysis for New, Relocated and Expanding Schools. Engineering
- Add Project at the request of the Transportation Mobility and Safety Division. Construction scheduled in FY2024
15. SM-6215SW – Statewide Project: Various School Traffic Analysis for New, Relocated and Expanding Schools. Engineering
- Add Project at the request of the Transportation Mobility and Safety Division

Management and Maintenance

16. ER-5600 – Various Vegetation Management. Clear Zone improvement and management statewide.
- Add Project at the request of the Roadside Environmental unit. Construction FY2022-FY2028
17. HM-9999 – Various Municipal Bridge Inspection Program. Implementation.
- Add Project at the request of the Structures Management unit.

Other

18. BO-2418 – North-South Connector, Construct Greenway / Side path Using Existing Road and Sidewalk Along North Greene Street from 1st Street to Mumford Road in Greenville.
- Add Project Due to Award of Federal Earmark. HP Funds Represent Federal Earmark Funds. ROW and Utilities begin in FY2024, Construction scheduled in FY2025.

Administrative Modifications

Highway Safety

1. HS-2002Z – SR 1131 (Reedy Branch Road), SR 1131 (Reedy Branch Road) At Bulldog Run and Eddie Smith Street in Winterville. Install Rectangular rapid Flashing Beacons.
 - Add Project Break at The Request of The Transportation Mobility and Safety Division. Construction scheduled in FY2024.
2. HS-2002AH – US 264 Alternate (Greenville Boulevard), From 200 Feet South of Luci Drive and NC 33 (10th Street) In Greenville. Construct Pedestrian Improvements Including Crosswalks, Pedestrian Signal Heads, And Sidewalk on east side of road.
 - Add Project Break at The Request of The Transportation Mobility and Safety Division. Utilities and Construction Begin in FY2024.
3. HS-2002X – SR 1725 (County Home Road), at existing crosswalk just south of district park drive in Greenville. Install rectangular rapid flashing beacons.

- To allow additional time for planning and design, delay construction from FY23 to FY24
4. HS-2002M – Division Project: SR 1598 (10th Street), At College Hill Drive and At Elm Street in Greenville. Upgrade Traffic Signals.
 - Delay construction to FY24.

Highway Prioritization Projects

5. U-2817 – Division Project: SR 1700 (Evans Street/ Old Tar Road), SR1711 (Worthington Road) in Winterville to US 264 Alternate (Greenville Boulevard) in Greenville. Widen to Four Lanes.
 - Cost Increase Exceeding \$2 Million and 25% Threshold. Construction increased to \$104,300,000.
6. U-5875 – Division Project: SR 1203 (Allen Road). SR 1467 (Stantonsburg Road) to US13 (Dickinson Avenue Extension). Widen to Four Lanes.
 - To Allow Additional Time for Utility Relocation, Delay Construction from FY24 to FY25.
7. U-5917 – Division Project: SR 1704 (Fourteenth Street), Red Banks Road to SR 1708 (Firetower Road). Widen to add Median and Protected Left-Turn Lane.
 - Cost Increase Exceeding \$2 Million and 25% Threshold. Cost increased from \$21,283,000 to \$27,428,000.
8. U-5991 – NC43, SR 1708 (Firetower Road) to SR 1711 (Worthington Road). Widen to Multi-Lanes.
 - Modify right-of-way, utilities, and construction funds from state funding to federal funding. Project now funded by Highway Trust Fund from Surface Transportation Block Grant Program. Right of Way and Utilities start in FY2027, Construction Scheduled in FY2029

Other Highway

9. U-6240 – Local Project: SR 1571 (West 5th Street), Rehabilitation and Realignment of SR 1571 (West 5th Street) From Cadillac Street to Reade Circle in Greenville.
 - Cost Increase Exceeding \$2 Million and 25% Threshold. DP Funds Represent Federal BUILD Grant Funds. Cost increase reflects the amount local contributed to the project.
10. HB-0021 – Division Project: Oxford Road, Replace Bridge 730419 Over Meeting House Branch in Greenville.
 - To Match the Schedule Provided by the Municipality. Delay Right-of-Way from FY23 to FY24. ROW and Utilities begin in FY2024, Construction scheduled in FY2024.

11. HO-0010B – Implement Statewide Traffic Operations Activities Such as Traffic Management Centers, Traveler Information, Intelligent Transportation Systems (ITS), And Traffic Incident and Event Management Across the Entire State. Implementation.
 - Add CMAQ Funding in FY24, FY25, and FY26. Cost Exceeding \$2 million and 25% Thresholds

Transit

12. TC-0008 – Statewide, 5339(B) Discretionary Grant for Facility Construction.
 - Add Funding in FY24 at the Request of the Integrated Mobility Division
13. TC-0010 – Statewide, 5339(B) Discretionary Grant for Facility Construction.
 - Add Funding in FY24 at the Request of the Integrated Mobility Division. Construction scheduled in FY2024.
14. TC-0012 – Statewide, 5339(B) Discretionary Grant to Purchase Electric Buses and Charging Stations.
 - Add Funding in FY24 at the Request of the Integrated Mobility Division

Other

15. M-556 – Advanced Right-Of-Way Acquisition Account. Revolving Account to Fund Advanced Right-Of-Way Acquisition. Funds To Be Repaid from The STIP Project at The Time the Project Is Funded. Right-Of-Way
 - Add Right-of-Way funds in FY24 not previously programmed.
16. TO-0004 – Statewide, System Safety Oversight Grant for NCDOT Rail Division. Administrative.
 - Modify Funds in FY24 at the request of integrated mobility division.

Action Needed: Request the Joint Governing Committee approve the amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

**RESOLUTION NO. 2023-11-GUAMPO
REQUESTING THE AMENDMENT OF THE STATEWIDE TRANSPORTATION
IMPROVEMENT PROGRAM FOR FY 2024-2033**

WHEREAS, the Transportation Advisory Committee for the Greenville Urban area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has reviewed the current FY 2024-2033 Statewide Transportation Improvement Program and found the need to request an amendment;

WHEREAS, the following amendment to the FY 2024-2033 Metropolitan Transportation Improvement Program has been approved;

(see Exhibit attached hereto)

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the amendments of the FY 2024 - 2033 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

Today, November 29, 2023,

Attachment 7a Transportation Advisory Committee

Action Required

March 27, 2024

TO: Transportation Advisory Committee
FROM: Eliud De Jesus, Transportation Planner
SUBJECT: Amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP)

Purpose: Amend the Greenville Urban Area MPO's Metropolitan Transportation Improvement Program (MTIP) to add new projects programmed and modify existing projects.

Discussion: There are a total of 25 amendments to the MTIP since the last meeting. There are 15 additions and 10 modifications made.

Within this MTIP, there are statewide additions for LIDAR data collection, resilience program reporting, management, and support, as well as training and development for various projects.

Additionally, there are some additions and modifications made to Division and Regional projects. The one addition was for various Division 2 programs to upgrade intersections to comply with the Americans with Disabilities Act (ADA). The modifications for project BO-2402 add additional funding from Transportation Alternatives funds to upgrade intersections to comply with ADA as well. It is worth noting that it was TALT5 funding that was added, which is for populations with less than 5k.

There were some modifications to a couple of STI projects. Projects U-2817, U-5730, U-5785, and U-5870, have experienced delays to allow for project coordination, as well as to allow for additional time for right of way the acquisition, and utilities relocation.

Between the Technical Coordinating Committee (TCC) and the Transportation Advisory Committee, NCDOT has released the April Item N handout. The handout contains three projects. Two federal projects which add funding for vegetation management and Electric Vehicle infrastructure construction on North Carolina's alternative corridors, and one Division project which accelerates the construction of rapid flashing beacons within the Town of Winterville. Although the TCC have not recommended these three amendments, if the amendments are not adopted within the fiscal year, there is a risk that these projects will lapse, which could result in delays.

The MTIP amendment break down is located below. The description/type of project is highlighted in bold lettering, the STIP projects are in Italics, and the modification or addition are bulleted. The April Item N handout amendments are marked with an asterisk.

Amendments

Statewide Projects:

Additions

LIDAR Data Collection

M-0563D – Statewide Category – Engineering - \$1,285,000

- Add preliminary engineering in FY 24 not previously programmed. This action adds the project to the federally approved STIP.

Resilience program reporting, management, and support.

M-0563E Addition – Statewide Category – Engineering - \$850,000

M-0563E Modification – Statewide Category – Engineering - \$2,550,000

- Add preliminary engineering in FY 24 not previously programmed.
- Modification to add preliminary engineering in FY 25 and FY 26 not previously programmed

Roadway Design - Open Roads Designer (ORD) Training and Development for Various Projects.

M-0552ADIV – Division Category – Engineering - \$600,000

M-0552AREG – Regional Category – Engineering - \$600,000

M-0552ASW – Statewide Category – Engineering - \$800,000

M-0552BDIV – Division Category – Engineering - \$600,000

M-0552BREG – Regional Category – Engineering - \$600,000

M-0552BSW – Statewide Category – Engineering - \$800,000

- Add preliminary engineering in FY 24 not previously programmed.

Training and Special Projects.

M-0553BDIV – Division Category – Engineering - \$2,400,000

M-0553BREG – Regional Category – Engineering - \$2,400,000

M-0553BSW – Statewide Category – Engineering - \$3,200,000

- Add preliminary engineering in FY 24 not previously programmed.

Integrated Project Delivery.

M-0553ADIV – Division Category – Engineering - \$1,200,000

M-0553AREG – Regional Category – Engineering - \$1,200,000

M-0553ASW – Statewide Category – Engineering - \$1,600,000

- Add preliminary engineering in FY 24 not previously programmed.

Modifications

Various, Vulnerable Road User Pedestrian / Bicycle Improvement program.

HS-2015DIV – Division Category – Construction - \$12,600,000

HS-2015REG – Regional Category – Construction - \$12,600,000

HS-2015SW – Statewide Category – Construction - \$16,800,000

- Add funding in FY 25 through FY 29 not previously programmed.

Statewide, Resilience Program reporting, Management and Support.

M-0563E – Statewide Category – Engineering - \$2,550,000

- Add preliminary engineering in FY 25 and FY 26 not previously programmed

*** Various, construction of electric vehicle supply equipment along North Carolina's alternative corridors and NEVI planning.**

HV-0001 – Statewide Category – Engineering, Construction - \$1,285,000

- Add preliminary engineering and construction funds in FY 24, FY 25, and FY 26.

*** Various, vegetation management - clear zone improvement and landscaping statewide.**

ER-5600 – Statewide Category – Engineering, Construction - \$1,285,000

- Add preliminary engineering funds in FY 24 - FY28 not previously programmed

Regional and Division Projects:

Additions

Various, Division 2 program to upgrade intersections to comply with the Americans with Disabilities Act (ADA) using Transportation Alternatives (TA) funds.

R-5782 – Division Category – Construction - \$100,000

- Add funding in FY 24 not previously programmed.

Modifications

Various, Division 2 program to upgrade intersections to comply with the Americans with Disabilities Act (ADA) using transportation alternatives (TA) funds.

Modification BO-2402 – Division Project – Engineering, Right of Way, Utilities - \$6,000,000.

- Add preliminary engineering in FY 24 – FY 28 not previously programmed
- Add right-of-way and utilities in FY 24 - FY 28 not previously programmed.

Evans Street/ Old Tar Road (SR 1700), Worthington Road (SR 1711) in Winterville to US 264 Alternate (Greenville Boulevard) in Greenville. Widen to four lanes.

U-2817 – Division Project - \$104,300,000

- To allow additional time for planning and design, delay construction from FY 25 to FY 26.

Memorial Drive (US 13), 5th street (NC 43).

U-5730 – Regional Project - \$1,400,000

- To coordinate let with B-4786, delay construction from FY 25 to FY 26.

Firetower Road (SR 1708), West of East Arlington Boulevard to Fourteenth Street (SR 1704) in Greenville. Widen To Four Lanes.

U-5785 – Division Project - \$39,120,000

- To allow additional time for right-of-way acquisition and utility relocation, delay construction from FY 26 to FY 28.

Firetower Road (SR 1708), Fourteenth Street (SR 1704) to East 10th street (NC 33) in Greenville. Widen to Four Lanes.

U-5870 – Division Project - \$42,414,000

- To allow additional time for planning and design, delay construction from FY 26 to FY 28.

*** Installation of Rapid Flashing Beacons at Reedy Branch Road (SR 1131), Reedy Branch Road (SR 1131) At Bulldog Run and Eddie Smith Street In Winterville.**

HS-2002Z – Division Category – Construction - \$55,000

- Accelerate construction from FY 25 to FY 24 at the request of the Division.

Action Needed: Approve the amendments to the 2024-2033 Metropolitan Transportation Improvement Program (MTIP).

**RESOLUTION NO. 2024-1-GUAMPO
REQUESTING THE AMENDMENT OF THE STATEWIDE TRANSPORTATION
IMPROVEMENT PROGRAM FOR FY 2024-2033**

WHEREAS, the Transportation Advisory Committee for the Greenville Urban area has found that the Greenville Urban Area Metropolitan Planning Organization is conducting transportation planning in a continuous, cooperative, and comprehensive manner in accordance with 23 U.S.C. 134 and 49 U.S.C. 1607; and

WHEREAS, the Transportation Advisory Committee for the Greenville Urban Area has reviewed the current FY 2024-2033 Statewide Transportation Improvement Program and found the need to request an amendment;

WHEREAS, the following amendment to the FY 2024-2033 Metropolitan Transportation Improvement Program has been approved;

(see Exhibit attached hereto)

NOW THEREFORE, BE IT RESOLVED that the Transportation Advisory Committee for the Greenville Urban Area adopts the amendments of the FY 2024 - 2033 Transportation Improvement Program for the Greenville Urban Area Metropolitan Planning Organization.

Today, March 27, 2024,

DocuSigned by:

Richard Beck
