

# MATCH & MARKET

## How many hours do I need to work?

There is no defined set of hours! Marketing requires individual creative time, so, you will be required to meet weekly tasks and be available for weekly check-ins to discuss progress.

## What do the weekly tasks look like?

Weekly tasks will tie into the main six deliverables of the program mentioned on the Match & Market website. An example of weekly tasks can include posting social media content every other day!

## What is the selection process?

The selection process is super easy! Fill out the Google form and that is it! You do NOT have to be a marketing major to apply! AND there is no interview process either.

## What will I gain from this experience?

You will gain practical experience in digital marketing and enhance your skills. You will also receive a certificate of completion, a weekly stipend, and a chance to make a positive community impact!
